4X4 FILTRATION UPGRADE KITS

FILTERS INCLUDED

Ryco's 4x4 Filtration Upgrade Kits protect against contaminants that lead to engine damage and decreased performance, giving you the confidence to push your 4x4 to the limit.

So when your engine needs superior protection, be Ryco Ready.

The NEW Filtration Upgrade range comes with the added benefit of including in a single complete box a Ryco Fuel Water Separator and Crankcase filter assembly, all the vehicle specific fittings including the hoses, clamps and brackets needed to make installation that much easier.

X101R

4X4 FILTRATION UPGRADE KIT

Ford Ranger PX (07/2011 - 06/2022), Everest UA (07/2015 - 05/2022)

PART IMPROVEMENT

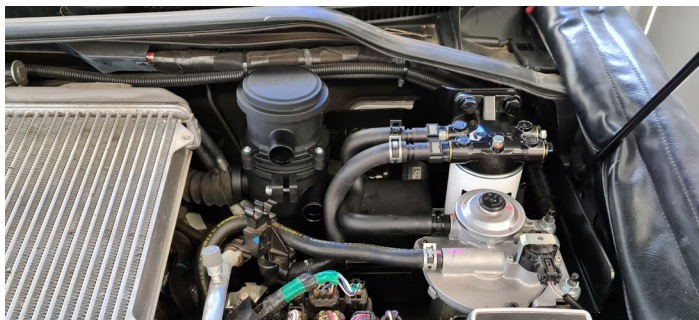

FILTERS INCLUDED FUEL WATER SEPARATOR & CRANKCASE FILTERS

Each Filtration Upgrade Kit includes new and improved standard Z980K16 or short Z980SK16 filter with new head & FH9803 water drain bowl to suit each vehicles specific fitment needs, along with a RCC351 Crankcase Catch Can Filter.

NEW FILTER HEAD & FITTINGS IMPROVED EFFICIENCY & QUICK CONNECTORS

Larger 16mm ports on the filter head for an overall efficiency rate increased to 99% and flow rate up to 120L/hour. Improved quick connects now have a large surface area for sealing. Making the DIY friendly and remove the need for thread sealant. Saving time and reducing risks of leakage.
