

# INNOVV™

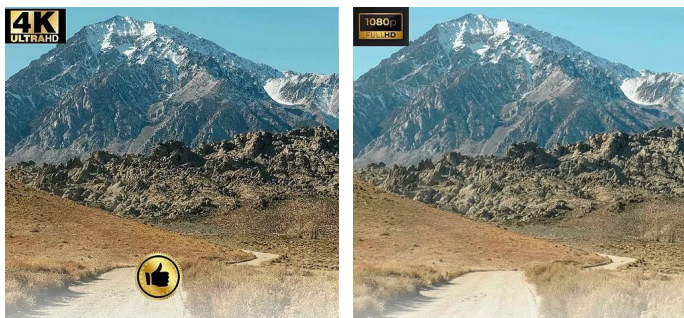

## INNOVV H5

4K Ultra HD, rechargeable Powersports Camera

- Single Channel Powersports Camera
- IP65 Rated – Dustproof and Waterproof
- SONY Image Sensor
- 4K UHD @ 30fps / QHD 1440p @ 60fps
- 120° viewing angle
- Electronic Image Stabilisation (EIS)
- Up to 300minutes recording time
- Battery and included Portable Power Interface
- Helmet Mount and Frame Mount included
- WiFi Connectivity (2.4Ghz) : Live View / Playback / Settings
- Mobile App (iOS & Android)

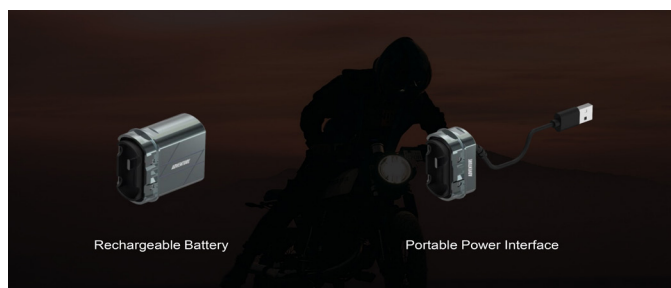

## 4K ULTRA HD

The H5 innovates with the Sony image sensor producing spectacular **4K Ultra HD** footage at 30 FPS. Alternatively, you can choose QHD 1440p at 60fps which also supports slow motion playback.

## Designed for any Environment

The H5 is constructed from the best engineering plastics giving a rugged, yet versatile feel. It is IP65 rated meaning it can stand up to many uses across dirt bikes, ATV's, Mountain Bikes, Marine, and Racing. The H5 is supplied with a Helmet Mount as well as a Frame Mount, giving the user many options.

## Extra Long Battery Life

Up to 5hrs (or 300minutes) of recording time enables the H5 to offer non-stop recording at the highest quality. It also comes with a Portable Power Interface giving you a secondary option if needed.

## Electronic Image Stabilisation (EIS)

The H5's SONY 4K image sensor is augmented with Electronic Image Stabilization (EIS) technology which produces high-resolution filming even in rapid motion environments. The INNOV H5 actively compensates for blur and rotation as well as eliminating unnecessary vibrations ensuring an overall enhanced video quality.

## Dedicated H5 App

You can easily take control of the device to view, download, and share exciting moments with your friends and family via the all new INNOV H5 Camera App.
