

Y62 PATROL SUPERCHARGER KIT

Extreme Performance. Ultimate Driveability.

OVERVIEW

Harrop has engineered world class performance products for a diverse range of applications, whether it is Original Equipment for Ford, Holden, Lotus or Category 1 Motorsport such as F1, NASCAR & V8 Supercars. Our TVS2300 Supercharger Kit for Nissan Y62 Patrol utilises the latest generation Eaton TVS supercharger technology.

The front drive/front inlet design allows for a shorter less restrictive intake path, improving air flow and delivering superior performance. Like all Harrop products, quality, performance and vehicle integration is fundamental in delivering OEM quality and fitment to the aftermarket.

KEY FEATURES

- Harrop TVS2300 Supercharger Kit
