Bushmans 85Ltr Stand-up Fridge, With Gworks Protective Fridge Surrounds

Gworks Manufactured Draw With Slide Out Table Including A Custom Designed Map Of Australia Vinyl Wrapped On The Pullout Table

GWorks canopies are built your way - durable, secure, and ready for anything. Using a structural support frame made of heavy-duty 3mm aluminium construction, our canopies are designed to keep dust and water out, your belongings secure, and easy to move on to your next Ute or truck - that's the GWorks way.

All our canopies are designed and fabricated with a 3mm aluminium 5052 shell, cut and moulded by CNC machining using a mix of unistrut and 3mm extrusion. All canopies feature waterproof hinges, a flush internal floor, and seamless doors to keep out water and dust. Electronically actuated locks provide added security and greater peace of mind.

POWERED BY
ENERDRIVE | DOMETIC

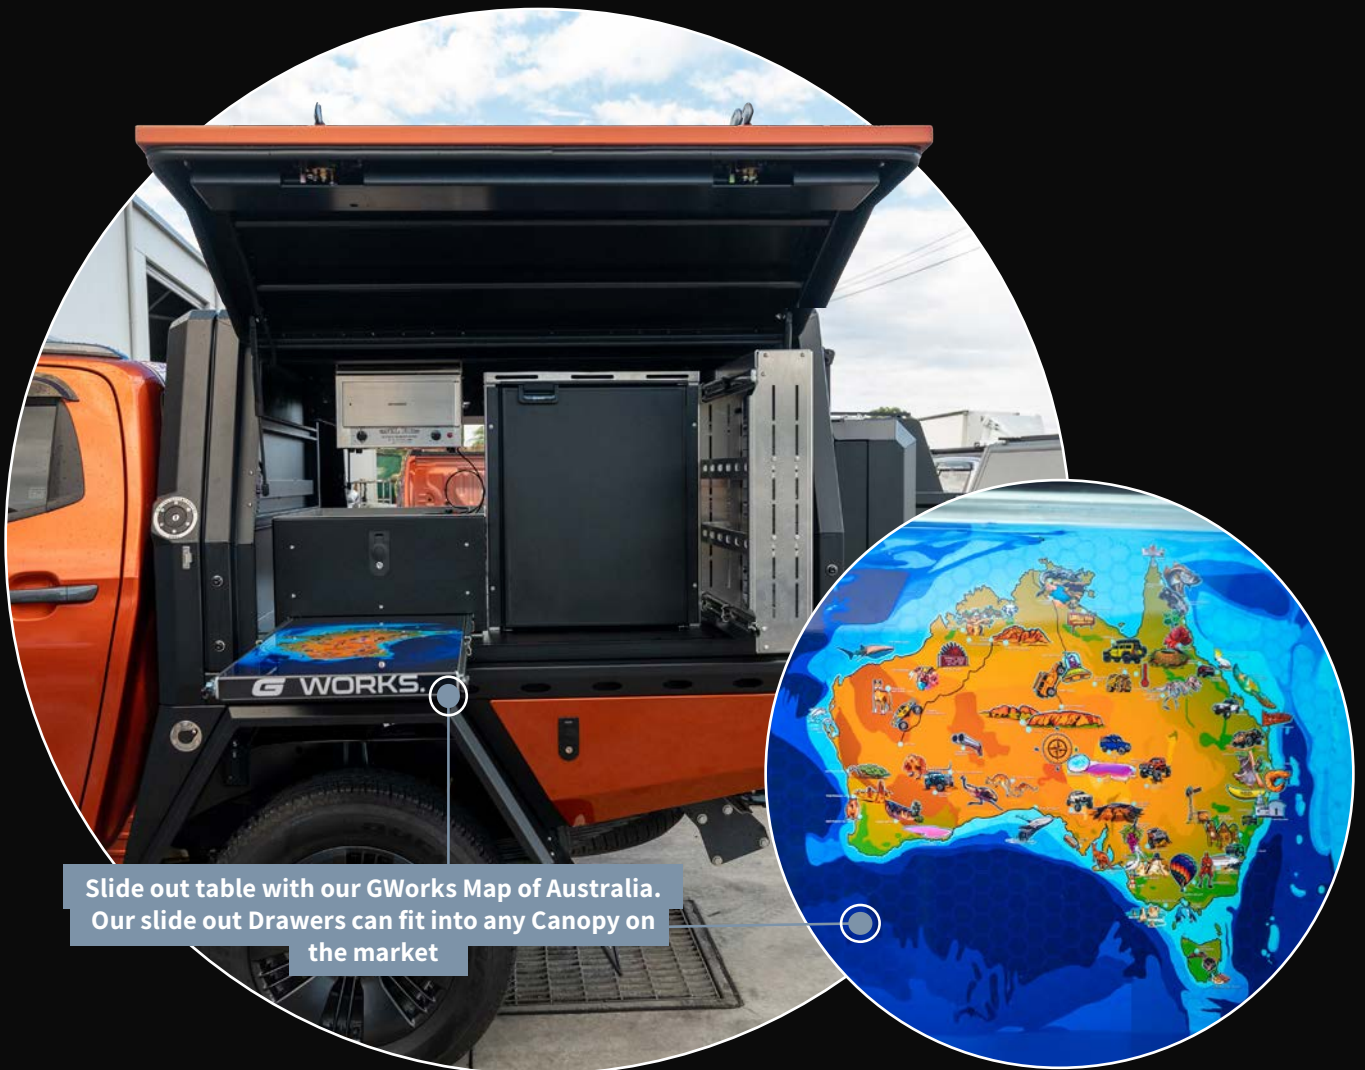

Please note: All systems are pre-wired by Enerdrive where possible so the only cabling required at installation time is Load Outputs, Battery Connection, & Vehicle/Solar/Tank Inputs.

FRIDGE & PANTRY

**WE HAVE DESIGNED
OUR PANTRY TO HOLD
A SUMO JET BOIL.
THE SHELVES ARE
ADJUSTABLE SO YOU
CAN CUSTOMIZE IT TO
YOUR LIKING**

Everyone at GWorks is an outdoor enthusiast, and there are plenty of good ideas thrown around the shed and office. Some of them even get designed, manufactured and put into the mix for our touring setups!

A perfect example of this is our slide out pantry that bolts straight into the GWorks Fridge surround, and our slide out drawer with the custom made map of Australia highlighting iconic points of interest!

Slide out table with our GWorks Map of Australia.
Our slide out Drawers can fit into any Canopy on
the market

Roof Mounted 12v Travel Buddy

Bushmans 85ltr Standup Fridge, with GWorks Protective Fridge Surround

Slimline Pantry

Double pivoting ladder for easy climbing up and down with anti-slip protection steps.

Platform Rack

Perfect for mounting of Awnings, Maxtraxx, Solar Panels and Ladders

Spare Wheel Mount

Suitable up to a 35inch Tyre

OUR STORY. THE DIFFERENCE.

Gworks is an Australian owned and operated business using the latest technology to drive the highest quality results.

We're a family business run by 4x4 and camping fanatics Adam and Nic. Growing up with an aim to work in fabrication and automotive, GWorks is an expression of our passion for the outdoors and fine workmanship.

GWorks uses tough and durable 3mm aluminium construction and structural frames built to withstand whatever Australia's weather can throw at it.

That's the reason GWorks are Port Macquarie's and the Mid-North Coast's most trusted choice for canopies. Because GWorks means quality!

GWorks canopies are future-proof canopies. Vehicles change, tastes mature, but the elements remain the same.

We work to that goal – ensuring trays and canopies go the distance.

We understand that a tray and canopy is an investment. To get the most value out of your GWorks tray and canopy, we fabricate a modular platform that you can take off and affix to another vehicle of your choice when the time comes. Only a few bolts and alterations are required to make the switch.

Better yet, our innovative designs mean minor repairs are based on components, making it a breeze to fix – and it costs much less than outright replacement if an unfortunate event occurs.

We build our solid structural frames from the ground up before sheeting. This ensures maximum strength and durability for whatever Australia's weather can throw at it – now and into the future.

**“OUR HIGHEST
QUALITY
CANOPIES CAN
WITHSTAND
ALMOST
ANYTHING”**

**THE GWORKS DIFFERENCE.
CANOPIES BUILT TO LAST AND LAST.**

EXTENDED WARRANTY

At Gworks, we take pride in building the best trays and canopies in Australia. Our commitment to quality is reflected in every aspect of our manufacturing process, from the latest equipment we use to the attention to detail we apply to every product we create. We believe that a great product not only performs well, but also looks great, which is why we pay close attention to aesthetics as well.

We are a 100% Australian-owned company and all of our products are made right here in Australia. We are passionate about supporting local businesses and contributing to the Australian economy.

At Gworks, we believe in the quality of our products, which is why we back them with an extended warranty. This means that you can have peace of mind knowing that you are investing in a high-quality product that is built to last.

Choose Gworks for the best trays and canopies in Australia. We are committed to providing you with a product that is both functional and visually appealing, and we stand behind our work with an extended warranty.

Scan for more info

Australia is known for its high-quality products, and our trays and canopies are no exception. We take pride in producing locally made trays and canopies that are built to withstand the tough Australian conditions.

Our team of skilled tradesman use the latest technology and equipment to ensure that each tray and canopy is manufactured to the highest standards. From design to production, we ensure that every detail is carefully considered and executed.

We understand the importance of supporting Australian businesses and creating local jobs. That's why we are committed to sourcing all our materials from local suppliers and manufacturing our products here in Australia.

By choosing our Australian-made trays and canopies, you are not only supporting the local economy but also getting a product that is built to last. We back our products with our extended warranty to ensure peace of mind for our customers now & in the future.

Our trays and canopies are designed to handle the rigours of everyday use, from the harsh Australian climate to the demands of heavy-duty work.

So, whether you're a tradie looking for a reliable tray or canopy for your work vehicle or an outdoor enthusiast looking for a tough and durable canopy for your 4x4, you can trust our Australian-made products to deliver the quality and performance you need.

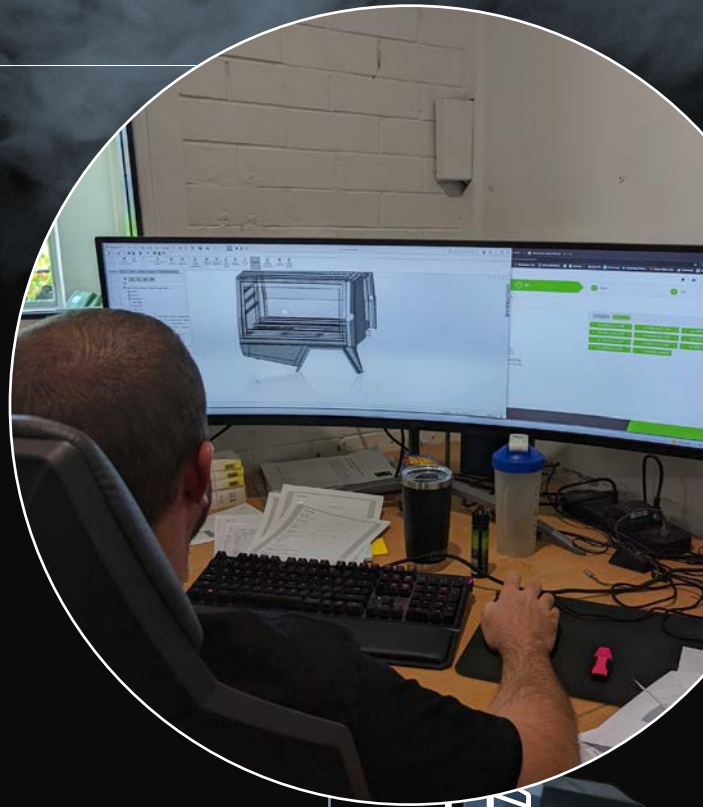

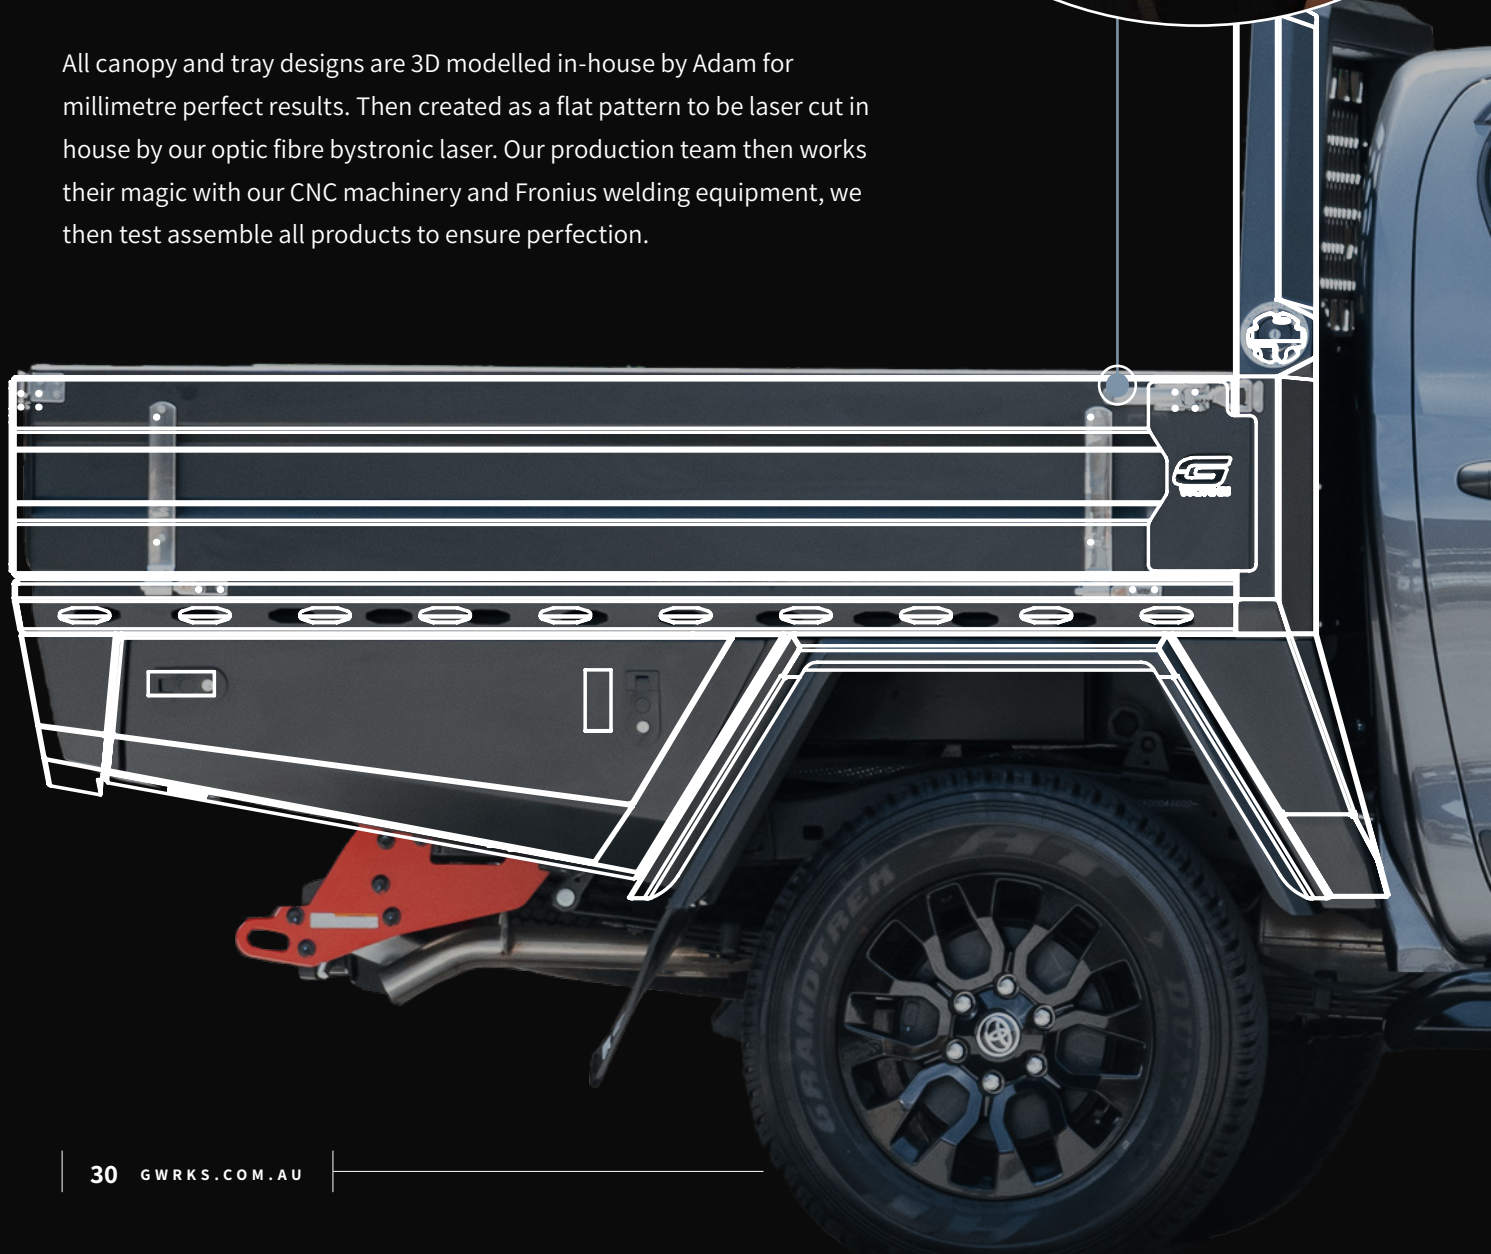

Port Macquarie, the birthplace of Gworks. *This vibrant coastal town has provided the perfect backdrop for Gworks to establish itself as a trusted brand along the Mid-North coast.*

WHAT'S INVOLVED

USING THE LATEST
TRAY AND CANOPY
DESIGN TECHNOLOGY
FOR SUPERIOR
RESULTS

All canopy and tray designs are 3D modelled in-house by Adam for millimetre perfect results. Then created as a flat pattern to be laser cut in house by our optic fibre bystronic laser. Our production team then works their magic with our CNC machinery and Fronius welding equipment, we then test assemble all products to ensure perfection.
