

# DUKE

## SWAGS

A Hybrid cross of the Bandit and Outbreak models The Duke swag simply does it all. The DUKE 1400 measures in at 2350mm long x 1400mm while the DUKE 1600 has one of the largest bed foot prints available at 2350mm x 1600mm wide creating ample room for adults, kids and pets. Increased height at head end combined with near vertical walls allows for comfortable sit up and ability to get changed.

Featuring night sky stargazing window panels at the head end with zippered storm flaps and a 4-way entry, controlled air circulation and climate control is managed by the inclusion of all-weather gusset canopy ends.

A super strong and easy to erect C clip pole system makes The DUKE the cream of the crop in freestanding design.

Built using a 400gsm tightly woven proofed and balanced plain weave poly cotton canvas and sewn with Tex 90 poly cotton sewing thread incorporating 501 lock stitch twin needle seams, The DUKE provides class leading strength and durability. The HF welded PVC bucket floor combined with the HF seam tape sealed seams ensure the inside of the swag remains dry offering ultimate protection and performance.

Additional features include a fully fitted 70mm hi-density covered foam mattress, heavy duty 19mm coated segmented poles and suspended overhead gear pockets. Pair The DUKE swag with the optional DUKE Annex for extra storage for bags, shoes or even as a pet shelter.

23ZERO swags come with a bonus roomy swag carry bag with strong grab handles at each end
