Invented by occupational therapists, the Strong Arm Strap is the perfect back saving device to have on hand in your jetski, boat, ute/4x4, campkit and tool box.

Popular amongst outdoor enthusiasts, this device is used by the largest logistics companies in Australia for over 15 years to reduce injuries. What was originally designed for truckies, is now loved by all!

Whether it's opening and closing truck curtains, pulling a jetski or boat on or off the beach, removing stiff tent pegs, dragging a heavy esky or heavy gear on a job-site, the multi-purpose tool helps you to **pull with ease, not injury!**
