

YOKOHAMA 4WD PRODUCT COMPARISON

The information supplied within this brochure is true and correct at time of printing (May 2025). It is recommended you contact your local Yokohama Dealer before making a purchasing decision.

ROAD HAZARD PROTECTION

Yokohama Road Hazard Protection covers drivers from unexpected road hazard damage both on and off the road. If selected Yokohama Geolandar tyres are damaged they'll be repaired or replaced for free*.

What is Road Hazard Protection?

The Yokohama Road Hazard Protection program protects your 4WD tyres against:

- Punctures
- Kerb Damage (including accidental)
- Staking
- Cuts
- Impact fractures

How much does it cost?

The Yokohama Road Hazard protection program is offered FREE with the purchase of 2 or more Yokohama Geolandar tyres from the following list:

- Geolandar X-CV G057
- Geolandar CV G058
- Geolandar H/T G056
- Geolandar A/T4 G018
- Geolandar X-AT G016

How does it work?

The certificate provides free puncture repair where there is at least 50% of the original tread remaining and wear-based replacement on non-repairable tyres as follows:

- If the tyre has greater than 75% of the original tread remaining Yokohama will replace the tyre free of charge.
- If the tyre has less than 75% but greater than 50% of the original tread remaining Yokohama will replace the tyre at a pro-rata cost. The driver only has to pay for the tread already worn off the tyre as a percentage of the retail purchase price.
- If there is less than 50% of the original tread remaining the tyre will no longer be covered.

Where am I covered?

The Yokohama Road Hazard Protection program gives you Australia-wide protection both on and off the road.

*The Yokohama Road Hazard Protection program does not include Geolandar A/T XD G017, Yokohama Geolandar Mud Terrain patterns, Geolandar M/T G003 or Geolandar X-MT G005.

**Products must be purchased from an Authorised Yokohama Dealer.
