

GEOLANDAR A/T4 G018

BEST OF BOTH WORLDS

The Geolandar A/T4 G018 is Yokohama's new all terrain tyre, ideal for family four-wheel drives and dual-cab work utes that require high level performance on and off-road, offering drivers the best of both worlds.

The precisely spaced angled tread block design, deep biting shoulder grooves and robust cut-resistant rubber compound equip the Geolandar A/T4 G018 for long-term performance and durability on the unforgiving dirt roads and off-road tracks around Australia. Whilst also promoting a safe and comfortable ride on suburban streets and highways ensuring confident wet grip, low noise and excellent handling.

TECHNICAL FEATURES

BENEFITS

2 in 1 Centre Blocks

Enhanced Traction & Anti-cut & chipping.

Zig-Zag Grooves

Wet road traction and reduced pattern noise.

Deep & Wide Shoulder Grooves

Biting edges for traction off-road and in deep snow.

Mud & Stone Ejectors

Keep grooves clear and protect against stone drilling.

Single Pitch Shoulder Blocks

Reduces road noise and provides excellent off-road traction.
