

GEOLANDAR X-MT G005

EXTREME MUD TERRAIN

The Geolandar X-MT G005 is engineered for today's hard core mud and rock-crawlers. This proud addition to the Geolandar line-up delivers undeniable traction, ruthless performance and the strength required to get you to the top.

Constructed with Yokohama's patented GEO-SHIELD technology featuring a full nylon cover, multiple sidewall plies and extra-thick sidewall protection, the Geolandar X-MT G005 is built to take the punishment of even the most severe off-road terrain.

- Wide Flat Profile
- Aggressive Tread
- Optimised Lug Grooves

TECHNICAL FEATURES BENEFITS

Triple Polymer Compound	Provides longer mileage, anti-cut & chipping, extreme handling and off road traction.
Aggressive Tread	New aggressive block pattern provides extreme off-road traction and superior crawling performance and self-cleaning capabilities.
Enhanced Sidewall Design	Tread design extends onto sidewall for extreme off road traction and durability.
Optimised Lug Grooves	Provides off road traction & increases wet braking performance.
Wide Flat Profile	Distributes stress evenly across the entire tread resulting in longer wear.
