UHF CB RADIOS + AUTOMOTIVE RANGE

oricom
100% AUSSIE OWNED

oricom

STAY CONNECTED WHEREVER YOU GO

At Oricom, we are specialists in communication technology with a passion for keeping people connected, on and off the road. Trusted across Australia and New Zealand, our products are designed to perform in the toughest and most diverse conditions these landscapes have to offer.

Our market-leading range of UHF CB radios and accessories combines premium quality with everyday value, including:

- ✔ DTX Premium Series
- ✔ Fixed Mount UHF CB Radios
- ✔ Handheld UHF CB Radios
- ✔ Tyre Pressure Monitoring Systems
- ✔ Automotive Accessories
- ✔ Inflation/Deflation Gear
- ✔ Antennas and Mounting Brackets

Backed by local design expertise, Oricom products are engineered for reliability, durability, and performance, wherever your journey takes you.

DUAL RECEIVE

RECEIVE TWO CHANNELS AT THE SAME TIME

The DTX4200XP uses Oricom's unique **DUAL RECEIVE** feature. It's just like having two radios in one.

This allows you to receive and listen to two different channels simultaneously. So if your talking to your mates on channel 64 and you are monitoring the highway channel on 40, you will be able to receive both transmissions at the same time, so you don't miss an important conversation.

 **ORICOM INNOVATION**

**Includes
Magnetic
Microphone
Mount**

MAIN CHANNEL - Convoy Channel 64

SUB CHANNEL - Highway Channel 40

Hear both channels at the same time so you don't miss an important transmission.

Also available in value packs:

 DUAL
RECEIVE

Great radio for touring the country!!

"Loving this unit! The install is super easy and it's great how the head unit can be hidden behind the dash if needed.

The handpiece, controls and microphone are easy to use and the sound quality is loud and clear.

Having the dual receive function makes it great for travelling in convoy and still listening to other road users as well."

Justin & Bec - Trip In A Van

Also available with
12/24V Operation:
DTX4200XDV

12/24V
OPERATION

Oricom's DTX4200XP is like two radios in one, allowing you to 'listen and receive two channels at the same time', so that you can hear everything that's going on.

KEY FEATURES

- Ergonomic, professional grade controller speaker microphone
- IP54 Dust and splash resistant
- Loud and clear audio with a speaker in the microphone and the transceiver
- Easy to see extra large backlit display
- Intuitive jog wheel to access primary functions
- Heavy duty die-cast metal chassis
- 3 Memory groups of 16 channels per group
- Large 96 multi-colour backlit display
- Back light brightness (5 pre-set levels plus auto)
- Fast scanning 80 channels within 3 seconds
- Duplex
- 38 CTCSS & 104 DCS codes
- Transmit power indicator
- Slide-in mounting bracket
- Auto power off (off/1h/2h/4h)
- 3.5mm External jack (for optional external speaker)
- Includes mounting hardware
- Includes 2 microphone extension cables, one for use with pass through connector (not supplied)
- Requires UHF CB Antenna (not supplied)
- 5 Year warranty

DUAL
SPEAKER

The UHF390R removes the need for a head unit, with all of the radio's controls in the microphone. The integrated speaker in the controller mic works with the transceiver speaker to deliver exceptional sound quality and volume. Perfect for modern vehicles where space is limited - simply hide the micro transceiver under the dash or driver's seat.

KEY FEATURES

- Heavy duty microphone with channel control
- Instant Replay Function
- Rugged micro transceiver
- 38 CTCSS and 104 DCS codes
- Duplex
- Open/instant/priority scan
- Large easy-to-read LCD display
- Includes 2 Microphone extension cables, one for use with pass through connector (not supplied)
- 5 Year warranty

Also available in value packs:

UHF390R4WP

Pack includes the UHF390R and ANU240 6.5dBi Antenna.

UHF390R4X4

Pack includes the UHF390R and ANU856 3dBi Antenna.

UHF310 MICRO SIZE 5 WATT UHF CB RADIO

This ultra compact micro UHF CB radio includes a flip LCD function and is the perfect install in modern vehicles or plant equipment, where space is limited. With a full 5 watts of power and the standard 80 channels, it'll keep you connected.

KEY FEATURES

- Ultra compact micro size
- Flip LCD function
- 7 Colour backlit display
- 38 CTCSS and 104 DCS codes
- Duplex
- Open/priority scan
- Rotary channel, squelch and volume control
- Dimensions of transceiver:

- 3 Year warranty

*Range can vary due to topographical and atmospheric conditions.

ANTENNA GAIN AND dBi

When choosing an antenna, it is important to consider the terrain in which the antenna is to be used, and match the best radiating pattern for the environment.

3dBi Gain Antennas

have a wide pattern, ideal for undulating terrain

6.5dBi Gain Antennas

are popular due to their all-round performance on flatter or slightly uneven terrain

Antenna showing radiation pattern for 3 and 6dBi antennas

This image is indicative of how a UHF CB antenna radiation pattern drops by 3dB. The radio signal continues past this point. UHF CB is a line of sight technology, or horizon technology, reception is limited at best when units drop out of direct line of sight.

How field strength patterns differ between antennas of varying gain

This is an indicative image showing UHF CB radio signals are line of sight and do not penetrate physical objects, such as hills. In some instances you may receive a limited signal slightly outside the line of sight between the two antennas.

UHF CB ANTENNAS

3 YEAR WARRANTY

Model No.	Description	Gain (dBi)
ANU025C	Portable mag-mount antenna with 3 metre coaxial cable and FME to PL259 connector.	1

UHF CB ANTENNA WHIPS, AM/FM

Model No.	Description	Gain (dBi)
UHF CB ANTENNA WHIPS		
ANU060	3dBi ground independent dipole UHF CB antenna with NMO connector and a highly flexible whip.	3
ANT220FGBK	Replacement fiberglass whip to suit ANU220.	3.5
ANT1CFGBK	Single coil fiberglass UHF CB antenna whip to suit the ANU230 and ANU250.	3.5
ANT2CFGBK	5dBi two coil fibreglass UHF CB antenna whip. When fitted to an elevated feed mounting, this will give 8dBi of gain and improved length will give a better range than a standard, single coil whip. Can also be fitted on a ground plane and in this case will give specified gain.	5
ANT3CFGBK	6dBi three coil fibreglass UHF CB antenna whip. When fitted to an elevated feed mounting, this will give 9dBi of gain and improved length will give better range than the single or two coil whips. Can also be fitted on a ground plane and in this case will give specified gain.	6
ANT3FGBK	3dBi black UHF CB antenna whip (140mm).	3
ANT4FGBK	UHF CB Fibreglass antenna whip to suit ANU1100.	3
ANT916PNK	UHF CB Fibreglass antenna pole to suit ANU913 and ANU900.	3
AM/FM ANTENNA		
ANB10	AM/FM Fibreglass whip. This antenna is designed for receiving AM & FM frequencies of AM 522kHz to 1710kHz and FM 87MHz to 108MHz. The unit is supplied complete with 4.5 metre lead and 3.5DC connector.	
ANB20	AM/FM/DAB+ Antenna with barrel spring base and fibreglass pole . This antenna is designed for receiving AM & FM frequencies of AM 522kHz to 1710kHz and FM 87MHz to 108MHz. The unit is supplied complete with base and 4.5 metre lead and 3.5DC connector.	
ANTB10	AM/FM Replacement whip to suit ANB10.	
CELLULAR ANTENNA		
ANC970	4G LTE Multi-band Cellular antenna with fibreglass pole and heavy duty barrel spring base. Frequency Range: 6.5dBi gain across bands 698-960 MHz. 5.5dBi gain across bands 2300-2700 MHz. 4dBi gain across bands 1710-2170 MHz.	
ANC670	4G LTE Multi-band Cellular antenna with fibreglass pole and heavy duty barrel spring base. Frequency Range: 2dBi gain across bands 698-960MHz. 3.5dBi gain across bands 1710-2170 MHz. 4.5dBi gain across bands 2300-2700MHz.	
ANTC670	4G LTE Cellular antenna radome to suit ANC970.	

Oricom's range of antennas suits mobile UHF CB Radios (477MHz) for Australia and New Zealand. The range covers all markets including 4WD, touring, industrial and transport.

EARSET5000	Earbud with 3.5mm jack suits SPKMIC5000 or any radio with 3.5mm jack
EBVOX5000	Small compact speaker with in-line mic and lock screw socket
2U0328	6-way charging station for simultaneously charging six UHF CB radios, with a simple clip-on/clip-off design.

SMART TYRE PRESSURE MONITORING SYSTEMS

SET-UP
WITH
FREE APP

External Sensor

Internal Sensor

Bluetooth

This Tyre Pressure Monitoring System supports up to 10 sensors via a solar-powered LCD display and comes in 4, 6, or 8-sensor pack options. Easily set up with a free app, it displays pressure and temperature data for enhanced safety.

Additional sensors are sold in the form of a double pack, with sensors able to be paired to the TPMS up to a total of 10.

The optional repeater enhances the signal from the sensors and boosts it to the LCD Display. The unit is recommended for vehicles that are greater than 9m in length.

KEY FEATURES

- Compatible with up to 10 tyre sensors
- Easy setup with the free app
- Switch between Offroad and Normal modes to save tyre pressure settings
- Compact solar powered display unit
- Long lasting display unit battery life
- Wireless transmission between sensor and display unit
- Adjustable threshold value
- Auto brightness on display
- Monitors pressure and temperature
- Visual and audio alarm
- Optional micro USB input
- Intelligent sleeping mode for power saving
- High/ low pressure warning
- Sensor failure warning
- 12 Month warranty
