

One trailer. Endless possibilities.
Ready for wherever the journey takes you

chameleontrailers.com.au

Ultimate flexibility, superior functionality, and genuine durability.

Proudly Australian made, Chameleon BASE Trailers delivers the ultimate scalable and flexible solution. Built around a unique 350 x 350mm grid of structural M12 anchor points, the system allows you to easily configure and reconfigure your setup using the growing range of LOKR storage solutions and FLEXR accessories.

TRAILERS

Precision engineered using advanced 3D design software, robotic CNC cutting and folding, and innovative interlocking construction, every BASE is lightweight, exceptionally strong and built for long term durability. Finished with a high-impact matte black powder coat and a 4mm aluminium checker plate floor, each BASE is designed to withstand demanding environments while maintaining a premium appearance.

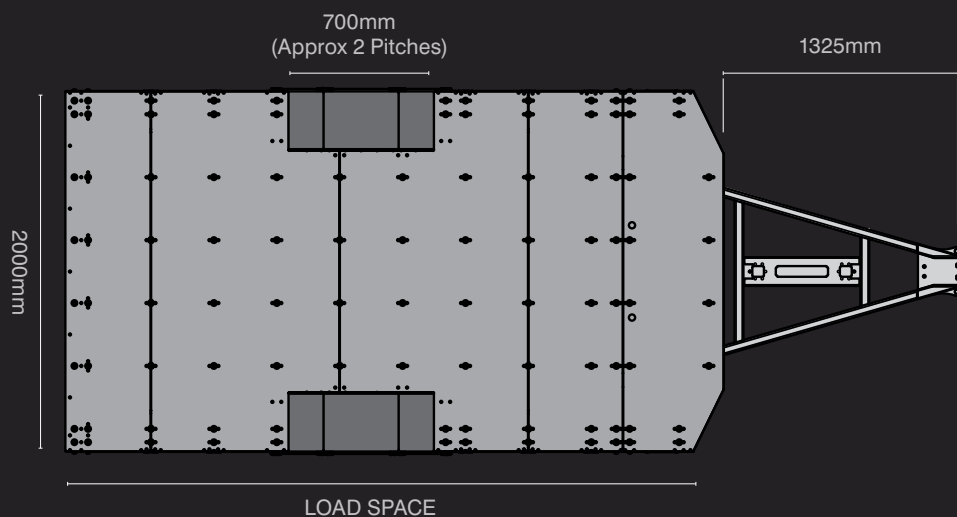

Fully compatible with the expanding range of LOKR and FLEXR components—including load racks, drop side kits, boat loaders and tool restraints, your Chameleon BASE Trailer evolves with your needs, delivering unmatched versatility for work, adventure and everything in between.

Revolutionary,
flexible, storage
solutions.

Designed to integrate seamlessly across the entire Chameleon BASE Trailer range, our Australian-made LOKR storage systems provide secure, modular storage for any application.

LOKR

STORAGE

Constructed from lightweight aluminium and built around the Chameleon 350x350mm grid system, LOKRs can be quickly added, removed or repositioned as your needs change.

A fully welded internal aluminium Uni-Strut and SHS frame delivers exceptional strength while enabling easy customisation with FLEXR accessories such as drawers, shelving and fridge mounts.

Externally, integrated roof rails and mounting systems provide additional versatility, allowing you to securely carry rooftop tents and other equipment, making the LOKR system the ultimate adaptable storage solution for work and adventure.

LOKR STORAGE	Model		Description	Weight
	WT (Wide Tall)	3.0	1038mm L x 2000mm W x 1200mm H	145kg
		4.0	1388mm L x 2000mm W x 1200mm H	168kg

FLEXR

ACCESSORIES

Maximise versatility, functionality and long term value.

Complete your Chameleon trailer with the FLEXR range of accessories.

Whether fitted at the time of purchase or added later, FLEXR components allow you to customise and evolve your trailer as your needs, applications and budget change. From worksite productivity to off-road adventures, the expanding FLEXR range ensures your Chameleon trailer remains adaptable, practical and ready for wherever the journey takes you.
