

BUILT BY OFF-ROADERS, FOR OFF-ROADERS

01 ENGINEERING BEFORE FABRICATION

Designed around airflow performance and validated with real CFD testing – not just built to fit.

02 AIRFLOW TESTED, VEHICLE SPECIFIC

Developed for your exact platform and measured for airflow, pressure stability and efficiency.

03 ADVANCED MANUFACTURING

Industrial additive manufacturing and modern fabrication, built in Melbourne for a plug-and-play fit.

04 NOTHING EXTRA TO BUY

Kits ship with the snorkel, brackets, cutting and drilling template, stainless fasteners and airbox fittings.

DESIGNED, FABRICATED AND FINISHED IN MELBOURNE, VICTORIA

VERIFIED CUSTOMER REVIEWS

★★★★★

"Really great quality, install was easy and it looks great."

BAILEY B. – ISUZU D-MAX SNORKEL

★★★★★

"Snorkel and airbox look good, very well built and didn't take long to make and ship."

RILEY B. – NAVARA NP300
