ENGINEERED FOR AUSTRALIAN TOURING, TOWING AND OFF-ROAD ADVENTURE.

NO ROAD. NO PROBLEM.

COMMITTED TO BE THE NEXT LEADING BRAND IN THE EXTREME OFF-ROAD WORLD.

Presenting...

Black Bear All Terrain III.
This innovative design sets a new standard for safety and comfort, transforming every adventure into an enjoyable journey.

ALL TERRAIN III

4WD PERFORMANCE

The exciting new features include a dual sidewall design, allowing you the flexibility to choose between the distinctive Black Bear sidewall or a standard sidewall appearance.

Crafted for the modern explorer, this new generation all-terrain tyre is engineered with a focus on lower noise levels, reinforced carcass material, and a thickened tread pattern and sidewall to enhance traction and provide robust anti-tear performance.

Prepare to elevate your driving experience with the superior performance and versatility of the Black Bear All Terrain III tyres.

BLACK BEAR

ALL TERRAIN III

4WD PERFORMANCE

NEW GENERATION ALL-TERRAIN FORMULA DESIGN WITH LOWER NOISE

REINFORCED CARCASS MATERIAL, THICKENED TREAD PATTERN, AND SIDEWALL PATTERN DESIGN TO PROVIDE STRONG ANTI-TEAR PERFORMANCE FOR THE TREAD.

- The geared type tread block design provides a more even force between the blocks and reduces noise when the tyre is running.
- The hook pattern block enhances the grip of the tread pattern.
- The longitudinal arch pattern block provides more stable driving performance on high speed roads.
- The combination of even and odd blocks with different shapes in the centre disrupts the frequency of resonance generating noise, reduces air column resonance and provides noise suppression.
- The design of small grooves in the large tread blocks on the shoulder increases the shape of the tread pattern adjacent tread patterns to lower noise.
- The reasonable pitch ratio of the entire tread pattern and the optimum arrangement of the tread blocks provide good grip and traction even on snow and ice.

DUAL SIDEWALL DESIGNS

Each ATIII has two sidewall designs so you can choose how your tyres look. One side has BLACK BEAR sidewall lugs and the other has plain sidewall lugs.

NO ROAD. NO PROBLEM.

COMMITTED TO BE THE NEXT LEADING BRAND IN THE EXTREME OFF-ROAD WORLD.

Introducing the NEW...
Black Bear RT PRO
Engineered to deliver the ultimate balance between on-road refinement and off-road capability.

RUGGED TERRAIN PRO

4WD PERFORMANCE

Featuring a revised hybrid tread pattern, the Rugged Terrain PRO offers reduced road noise, enhanced stability, and improved comfort during everyday driving, while maintaining the aggressive traction required for demanding off-road conditions.

Whether you're navigating city streets, towing, or taking on rugged trails, the Rugged Terrain PRO provides exceptional handling, stability, and endurance.

It's a true hybrid performer, built for drivers who demand reliability and strength — wherever the journey leads.

BLACK BEAR
TYRES AUSTRALIA

RUGGED TERRAIN PRO

4WD PERFORMANCE

Engineered for the best of both worlds — on-road comfort and off-road domination.

HYBRID TREAD DESIGN

Combines the key attributes of All Terrain and Mud Terrain tyres, offering a versatile performance profile suitable for multiple surfaces.

OPTIMISED PITCH SEQUENCE

Specifically tuned to minimise pattern noise, resulting in quieter highway operation.

ADVANCED TREAD COMPOUND

Formulated for increased grip and control in both wet and dry conditions, while extending tread life.

IMPROVED WATER EVACUATION CHANNELS

Enhance handling and braking in wet weather by efficiently dispersing water from the contact patch.

REINFORCED SHOULDER BLOCKS

Deliver enhanced sidewall protection and improved traction on loose and uneven surfaces.

HIGH-STRENGTH CONSTRUCTION

Designed for durability and puncture resistance under heavy loads or rough terrain.

Presenting...

Black Bear Mud Terrain
Quietest MT on and off-road
with excellent performance and
powerful gripforce making
4WDing easier to handle.

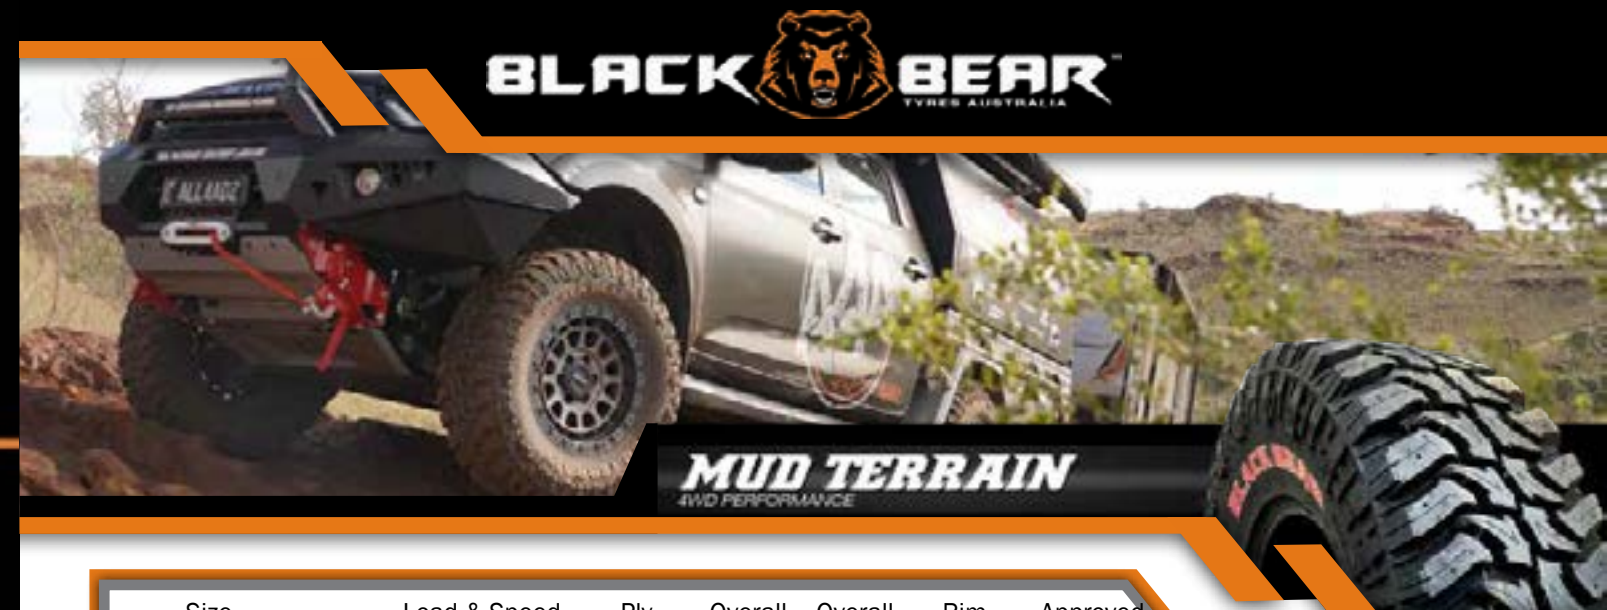

**MUD
TERRAIN**
4WD PERFORMANCE

Designed with heavy duty tread blocks
that help provide a greater grip when
driving on muddy terrain, allowing the
vehicle to maintain a consistent grip and
traction while travelling.

The Black Bear Mud Terrain tyres are
also known for their durability and
quietness on road. These thick tyres can
withstand punctures from rough terrain
and are designed with reinforced sidewalls,
giving the tyres extra resistance to damage.

No matter what kind of terrain you encounter,
you can trust Black Bear Mud Terrain tyres
to provide you with the confidence and
control you need.
