

(PATENT PENDING)

**EASY STAIR ACCESS TO  
ROOFTOP TENT SPACE**

# XPLORER 2.2

The HKC Xplorer camper trailer is the most versatile, innovative trailer we've ever made.

With its modular interior fitout, exclusive easy-access integrated staircase and intelligently-designed rooftop tent and 270° awning, this camper trailer is quick to set up and an absolute pleasure to use. Add to that up to an 850kg carrying capacity and you'll never need to compromise on your adventure.

And when you're not on holiday, it's easy to convert the trailer to carry goods or equipment. It's a true game changer.

**LIFE WITHOUT LIMITS**

**READY FOR  
ANYTHING.**

Whether you're heading out bush or to the beach, the Xplorer camper trailer will get you there and back without missing a beat.

Boasting a full 150mm x 50mm x 3mm hot dipped galvanised chassis, 265/75 R16 mud-terrain tyres (including two full-sized spares), dual independent big bore gas shocks and heavy-duty wheel bearings, the Xplorer camper trailer will handle tough terrain with ease.

With its lightweight aluminium body, you can tow the Xplorer with basically any offroad-capable vehicle.

## INCREDIBLY CUSTOMISABLE

With the Xplorer camper trailer, you're not limited to a single pre-set configuration. Rather, you can customise the storage space and equipment to suit the way you want to use it.

Want a convenient integrated solution to prepare and cook meals while at camp? Just add in one of our removable modular kitchens. It's got a 2-burner gas stove and plenty of storage space for preparation.

### KITCHEN

### PANTRY

Organise and store your dry goods in transit and have them immediately accessible when you get to camp with our modular camp pantry. Easily removable if you need extra storage space.

Our dual-lift hard shell rooftop tent is simple for one person to set up and pack down, and will give you an excellent night's sleep. It is easy to access via the Xplorer's integrated staircase.

### ROOFTOP TENT

### AWNING

The Hardkorr awning is one of the largest on the market, with 13.5m<sup>2</sup> of total coverage. It can handle up to 30kt of wind without poles, and is designed for easy single-person setup.

# GO ANYWHERE. TAKE EVERYTHING.

## NO MORE LADDERS.

A common complaint about camper trailers with rooftop tents is that you have to use a ladder to enter and exit your tent.

With the Xplorer, the game has totally changed. It's the first camper trailer in Australia to feature a staircase integrated into the trailer itself\*, making it much safer and less strenuous to access your tent.

It's one of the many clever touches which sets Hardkorr camper trailers apart from the rest.
