

BUSHRANGER
4x4 GEAR

VARIABLE SERIES | LED LIGHTS

CONTROL THE **LIGHT**. CONTROL THE **NIGHT**.

CONTROL AT THE TURN OF A DIAL

The high-performance Night Hawk Variable Series LED Lights offer industry-leading technology with user control. Consisting of three model variants, they unlock more options to suit the driver's individual needs when tackling their next adventure. The Bushranger 4X4 team has put user-controlled lighting at the forefront of development, with the ability to choose the optimum settings to suit an individual's visual preference and adjust to the environment around them. Innovative design, complete control, optimum vision.
