

BRAVO HT770

Performance when it's wanted.
Safety when it's needed.

Known as the Maxxis flagship highway terrain tyre the **Maxxis Bravo HT770** development team perfected the finer details to create an M&S all-season rated tyre worthy of being a flagship.

Based on the Maxxis motor sports experience, the team created a new sidewall design that delivers a comfortable ride while maintaining excellent stability under heavy braking and crosswinds.

The engineers also utilised a closed shoulder pattern design and multi-pitch tread blocks to create a comfortable driving experience.

Premium highway terrain tyre designed for **light trucks and SUVs.**

Ripple sipe design **improves overall wear pattern** and **traction on slippery surfaces.**

Dual circumferential grooves **increase water dispersion efficiency** for **improved hydroplaning resistance.**

Multi-pitch tread blocks **minimise pattern noise** for a quiet and serene cabin.

Closed shoulder design **limits noise resonance** in tread area, **further reducing cabin noise.**
