

**PREPARE.      PERFORM.      RECOVER.**

***“Preparedness, performance, and recovery are the guiding principles that underpin our approach, guaranteeing a comprehensive and resilient experience in every adventure.”***

## **ABOUT US**

*"We are dedicated to innovation and maintaining our commitment to quality and service. Our focus is on ensuring comprehensive preparedness, enabling high-level performance, and providing effective recovery solutions in the face of the unexpected."*

## **OUR BRANDS**

### **SecondAir Beadlocks**

SecondAir is a patented pneumatic tyre bead locking system, not requiring special rims while maximising your tyres full potential.

### **Dynamica Rope**

Dynamica SK78 is 12 strand braided rope produced with HMPE/Dyneema®. Dyneema® is the world's strongest man-made fibre™.

### **Ground Grabber**

The Ground Grabber ensures a dependable winch anchor point wherever your adventure takes you.

**HEAD OFFICE: 158 Grey St. Swan Hill VIC**

## PRODUCT INFORMATION

### DYNAMICA ROPE

#### Includes:

- Spliced at one end with wear protector.
- 2 metre sliding rope protector sleeve.
- Lug to secure end to winch drum.

#### Qualities:

- 20% stronger than steel wire of the same diameter.
- Less than one tenth the weight of steel rope.
- Made from Dyneema, the worlds strongest manmade fibre,
- Stores very little energy, therefore has little backlash if broken, improving safety.
- Immense stability towards UV light.
- Resistant to chemicals.
- Kink resistant.
- Has natural buoyancy retaining its strength wet or dry.
- Lowers the weight over front axle.

Rope Size	Breaking strain at splice (tonnes)
1.5mm	0.375
2.5mm	0.75
3mm	1.1
4mm	1.4
5mm	2.3
6mm	3.6
8mm	7.3
10mm	9.8
11mm	12.7
12mm	16
14mm	20
16mm	24
18mm	32.2
26mm	55
32mm	78.5
44mm	170
