# THE ULTIMATE POWER COMPANION FOR THOSE ON THE GO!

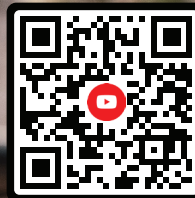

Introducing the Wildtrak Multi Function Jump Starter Range. These multi-function marvels are perfect for the glovebox and a must have for every vehicle owner, boatie, tradie, farmer, camper, off-roader and everyone in between, ready to jumpstart 12V car batteries in just 4 simple steps. But it doesn't stop there – they are also mobile charging units for all your devices. With a USB fast charging outlet, they can easily charge mobile phones and tablets as well as use their powerbank function to run a portable refrigerator and other devices. The 2000A and 4000A also have a wireless charging capability so you can simply place a phone on the charging pad.

And let's not forget about their handy flashlight functions, providing illumination in any situation. Packed in a convenient heavy duty zippered carry case, these truly are a multi-function unit that comes with everything you need. Get powered up with a Wildtrak Jumpstarter today!
