Who We Are

Since 1997, Kinderway Packaging has been a trusted flexible packaging manufacturer, delivering innovative, high-quality, and sustainable packaging solutions to customers worldwide.

Backed by nearly 30 years of expertise, advanced manufacturing capabilities, competitive pricing, and responsive service, we help brands enhance product performance, shelf appeal, and market competitiveness.

A man with dark hair, wearing a dark suit jacket over a dark shirt, is seated at a wooden chessboard. His hands are clasped together, and he is looking directly at the camera with a serious expression. The chessboard is in the foreground, with several pieces visible. The background is slightly blurred, showing what appears to be a bookshelf.

Our Mile-stones

1997

Company was founded in Shishi by Mr Guo.

2013

Expand and relocated the morden manufacturing facility in Xiamen

2019

Austrial Office

2025

Global Distribution: EU, LA, Russia

Goals to Achieve

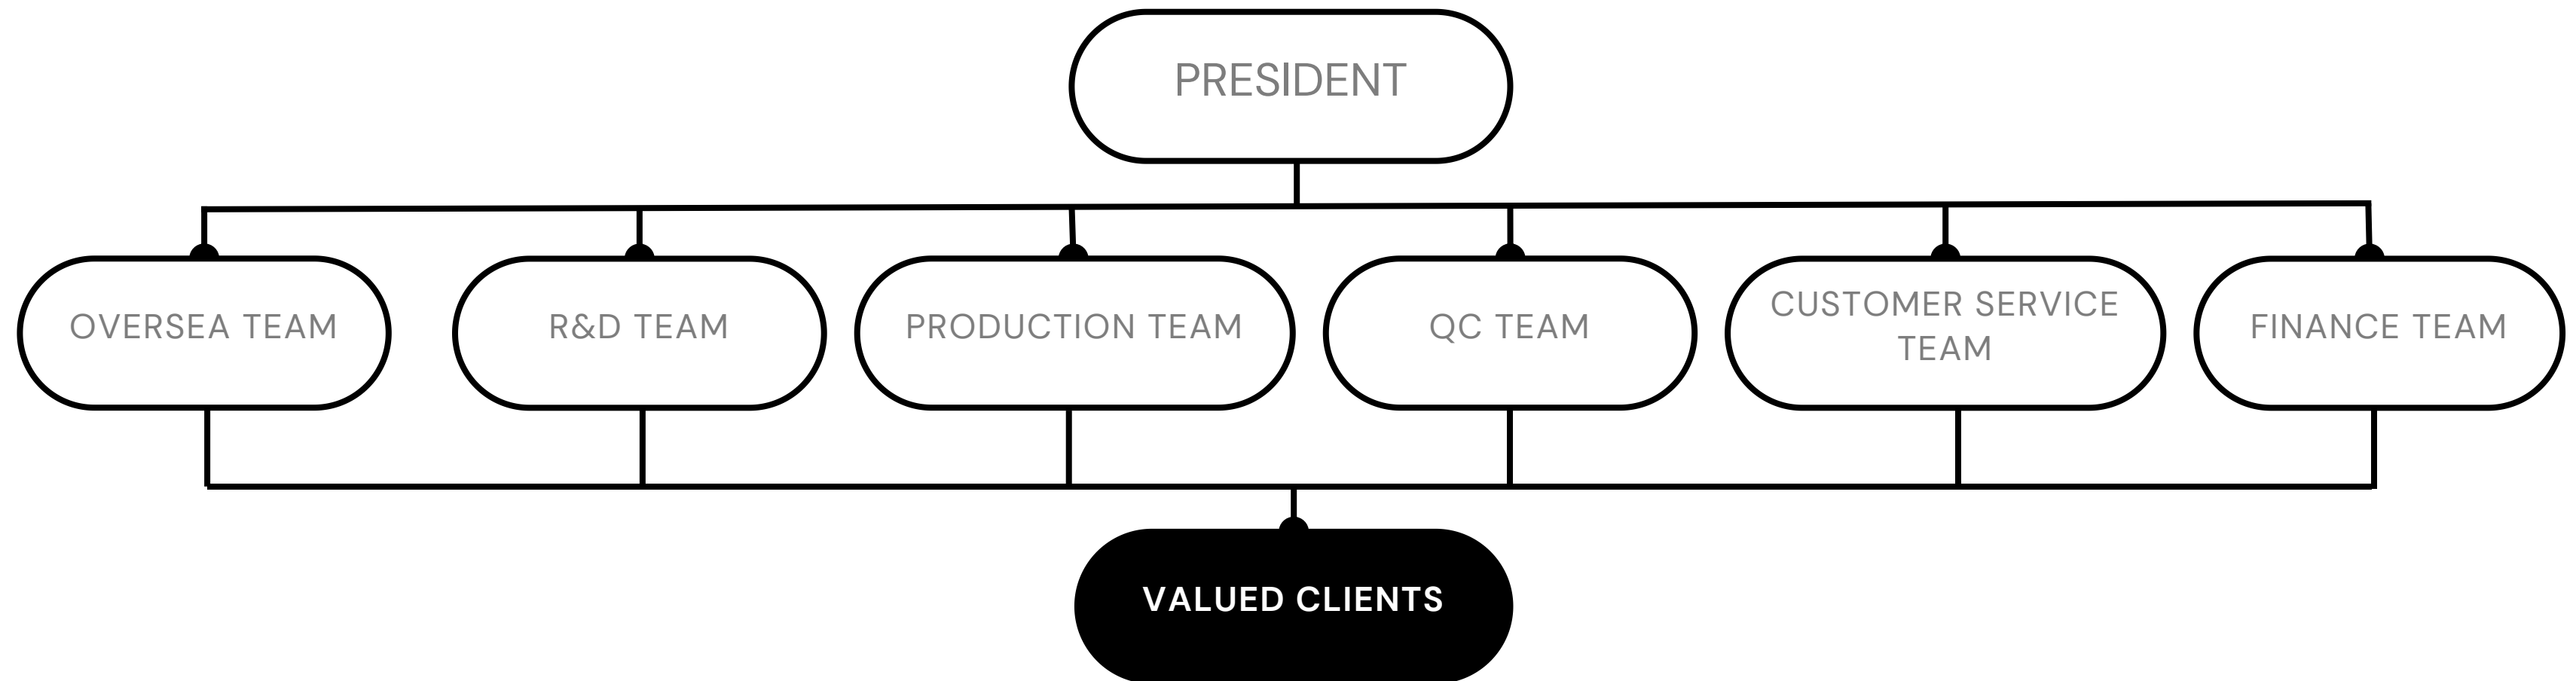

Provide eco-friendly
flexible packaging
solutions

Quality first
Customers first

Helping clients' brands
stand out

Never stop the
researching and
development

Our Teams

Our Overseas Team

Our Process

01. Prepress – Complete Electronic Image Processor
02. Printing – Rotogravure
03. Blown/Cast Film
04. Lamination – Extrusion, Dry and Solvent Free lamination
05. Coating – Cold seal/Hot Melt
06. Slitting – Central rewind/Laser Score
07. Bag Making
08. Injection
09. Spout Welding

Printing Facilities

- Rotogravure Printing
- 10 Colors
- **7 Units** Printing Machines
- Capacity: 500 Million Meters/Year

- Automatic Ink Dispenser
- Automatic Defect Detector
- Automatic Viscosity Control

Lamination Facilities

- Solvent Base/Dry Lamination

- Solvent Free Lamination

- Extrusion Lamination

- Automatic Adhesive Mixing
- Automatic Viscosity Control
- Capacity: 530 Million Meters/Year

Blown Film

- Coex-3 Layers

- Automatic Resin Mixing
- Online trim recycle
- Capacity: 20,000Tons/Year

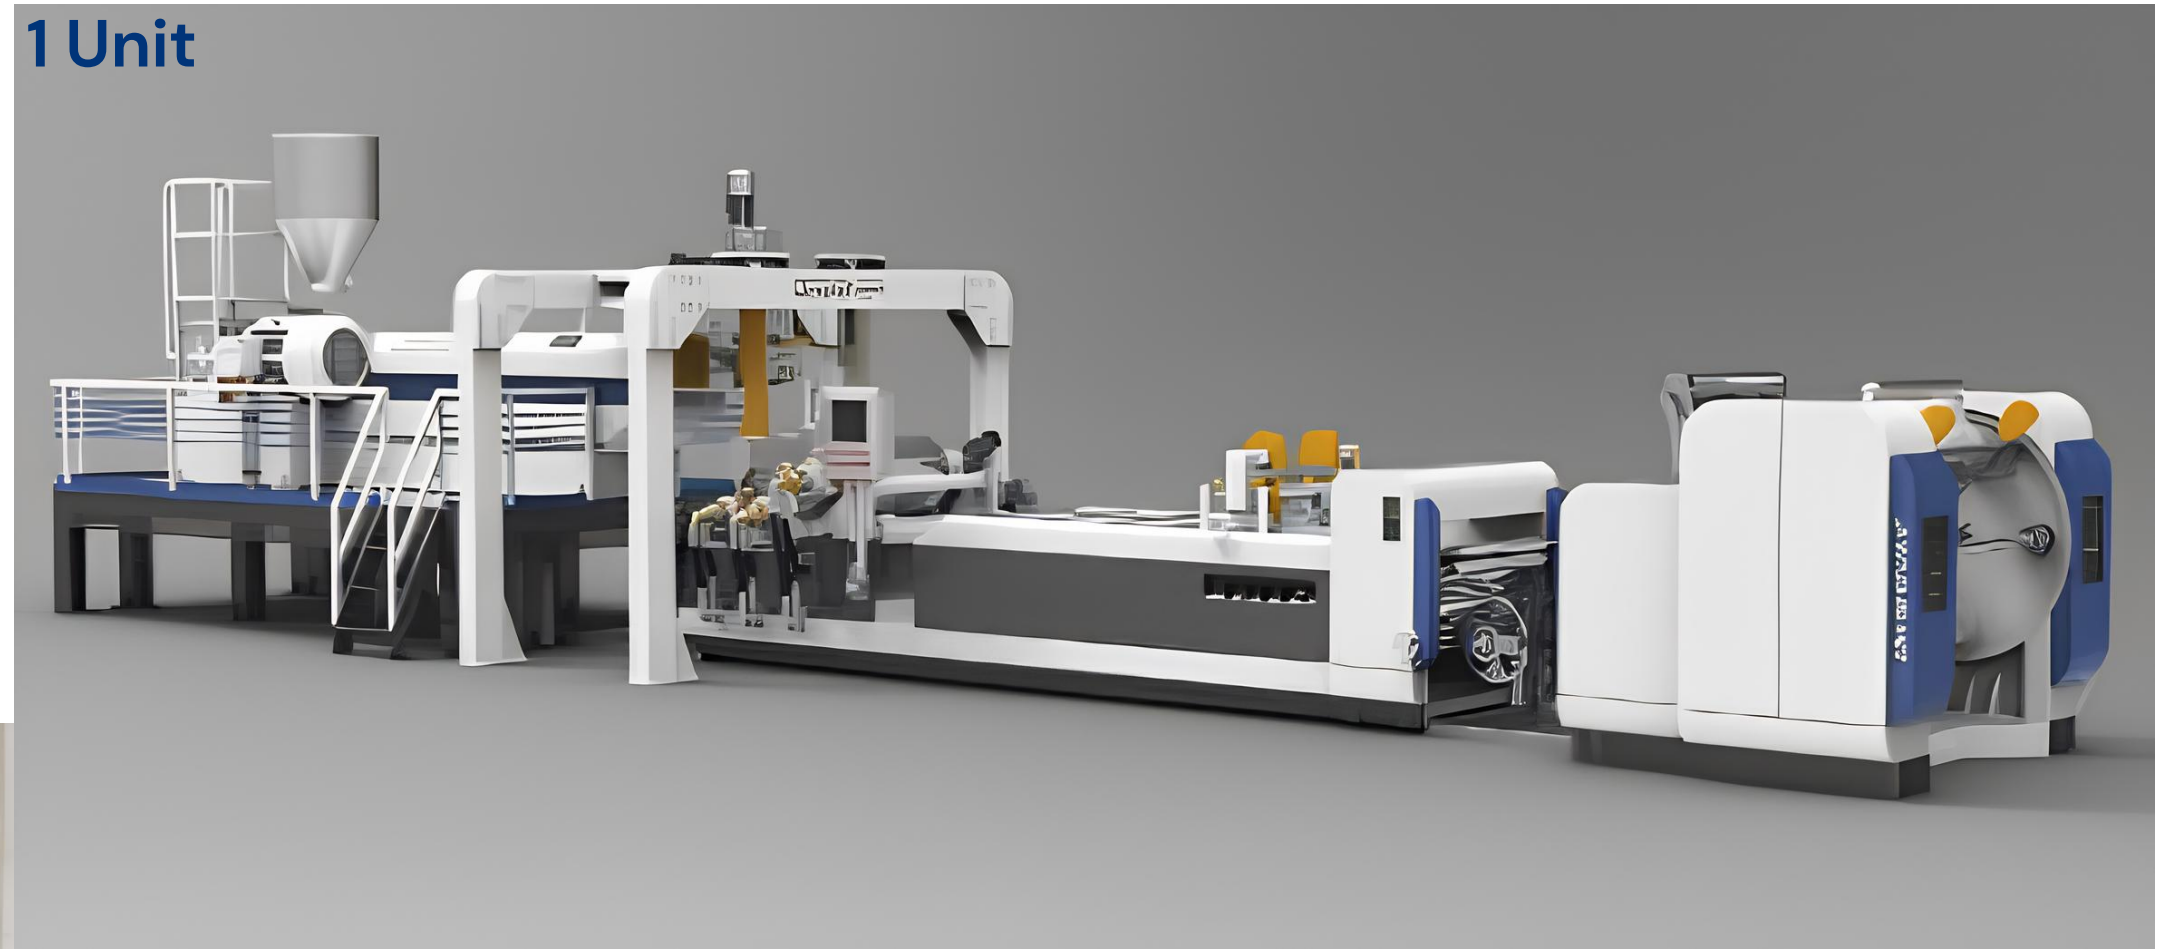

- Coex-5 Layers

Casting Film

- Thermoform Sheets

1 Unit

1 Unit

- CPP/CPE film available
- PP,PS,PLA sheets available
- Capacity: 10,000Tons/Year
- Coex-3 layers Cast film

Aging Room

- 8 Individual Aging Chambers
- Automatic Bar-Code Control System
- Automatic Aging Time Control
- Automatic Temperature Control

Slitting

- Slitting Machines – 5 Units
- Laser Score – 4 Units
- Inkjet Printing – 1 Unit
- Gold Stamp – 1 Unit
- Capacity: 300 Million Meters/Year

Bag Making

- Stand pouch, 3-Sides – 32Units
 - Center Seal – 6Units
 - Flat Bottom– 7Units
 - Bag In Box – 1Unit
- Capacity: 300 Million Meters/Year

Spout Welding

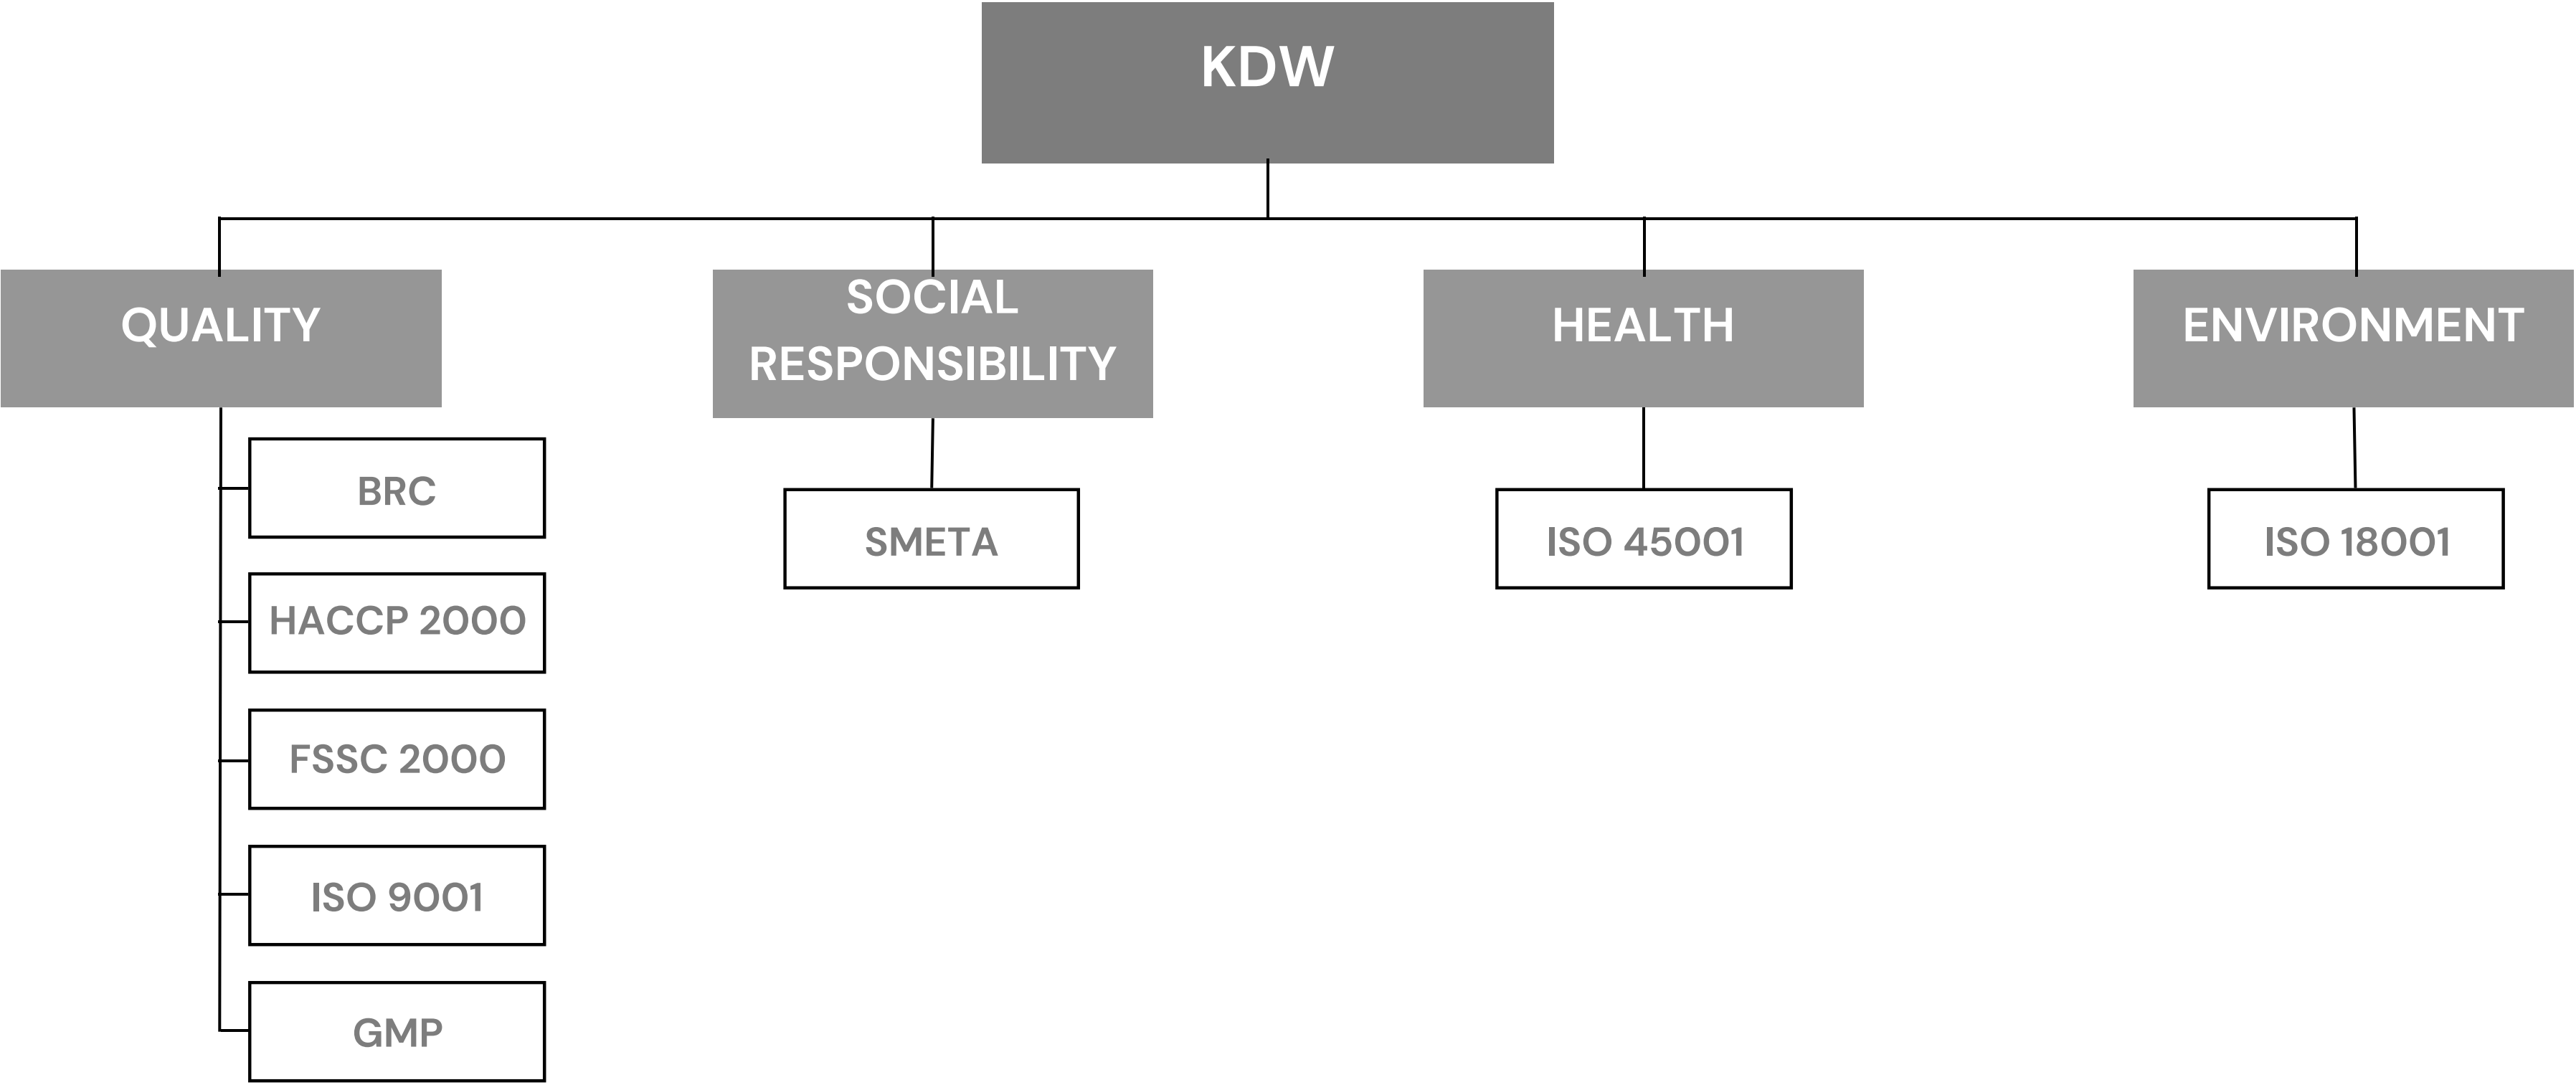

- Auto central spout welding – 34Units
- Auto corner spout welding – 4Units
- Capacity: 1 billion PCS/Year

Injection Plant

- Clean Workshop
- GMP Standard
- Mold Making In-House
- 45 Units Injection Machines

Our Quality

Sustainability

In the current dire state of the environment, it is imperative to address and alleviate environmental issues promptly.

As a leading sustainable development packaging company, KDW recognizes its responsibility and obligation to make even the slightest contribution towards environmental preservation.

Actions

- **VOC Syterm**

3,000 tons solvent recycling for reuse

- **SOLAR PANEL**

6,640pcs, , total capacity: 3.05MWp.

Provides around 15~20% of the whole KDW power consumption, connects the States Grid directly.

- **Recyclable**

1. Mono-PE
2. Mono-PP
3. Mono-PP/PE

- **Bio-degradable**

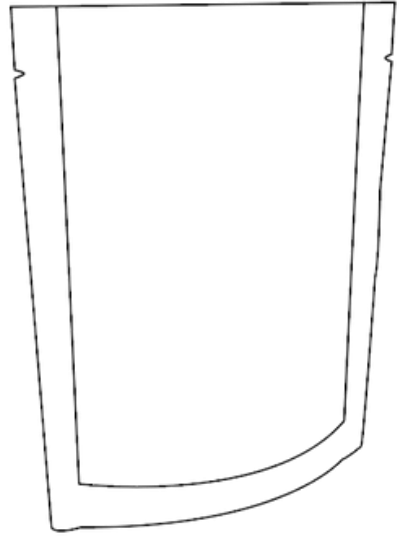

1. Paper
2. PLA
3. Cellulose Membrane

- **PCR**

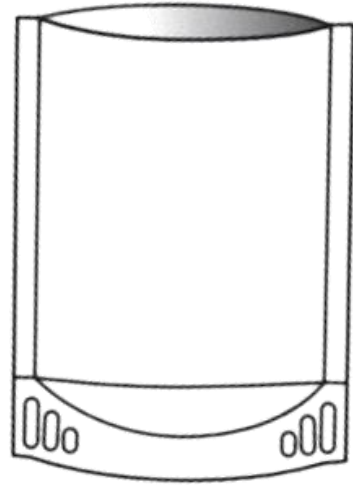

1. 70%~90% PCR-PET
2. 20%~50% PCR-PE
