CLEXTRAL AT A GLANCE

As a true turnkey solutions provider, Clextral designs complete production lines and supports its clients at every stage of the project lifecycle. From engineering to installation, CLEXTRAL teams transform your ideas into reliable, high-performance industrial solutions.

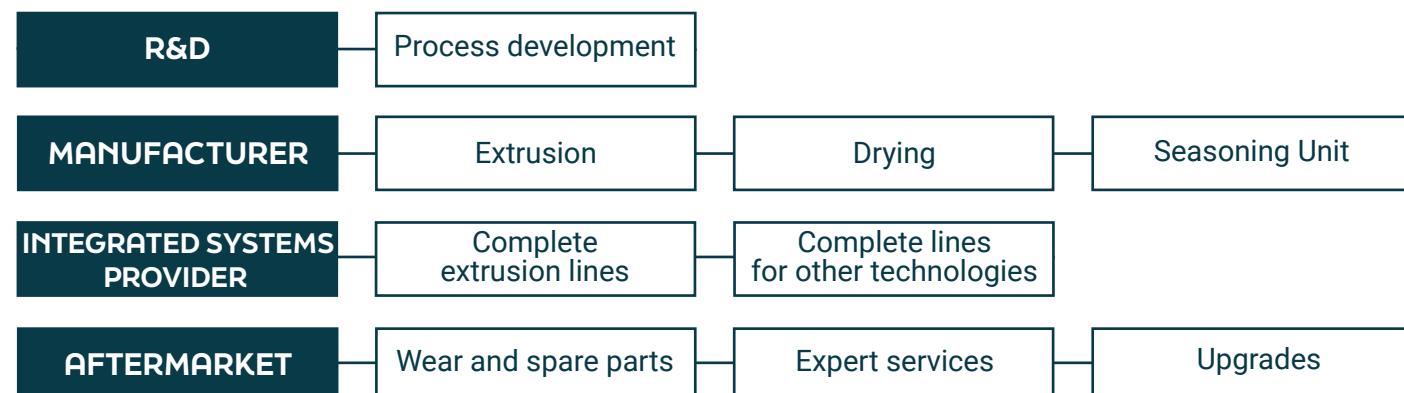

As an international industrial player, Clextral generates 80% of its revenue from export markets and supports customers worldwide in the food industry, biomass processing, as well as cosmetics, plastics, chemicals, defense and other industrial sectors.

CLEXTRAL's strength also lies in its ability to engage at the earliest stages of projects. Its engineering and R&D teams work in close collaboration with customers to transform product ideas into industrial reality.

CLEXTRAL R&D centers allow customers to:

- › validate recipe feasibility,
- › optimize process parameters,
- › conduct pilot trials,
- › secure industrial scale-up.

This co-development approach reduces industrial risks, shortens time to market, and ensures alignment between product objectives and process realities.

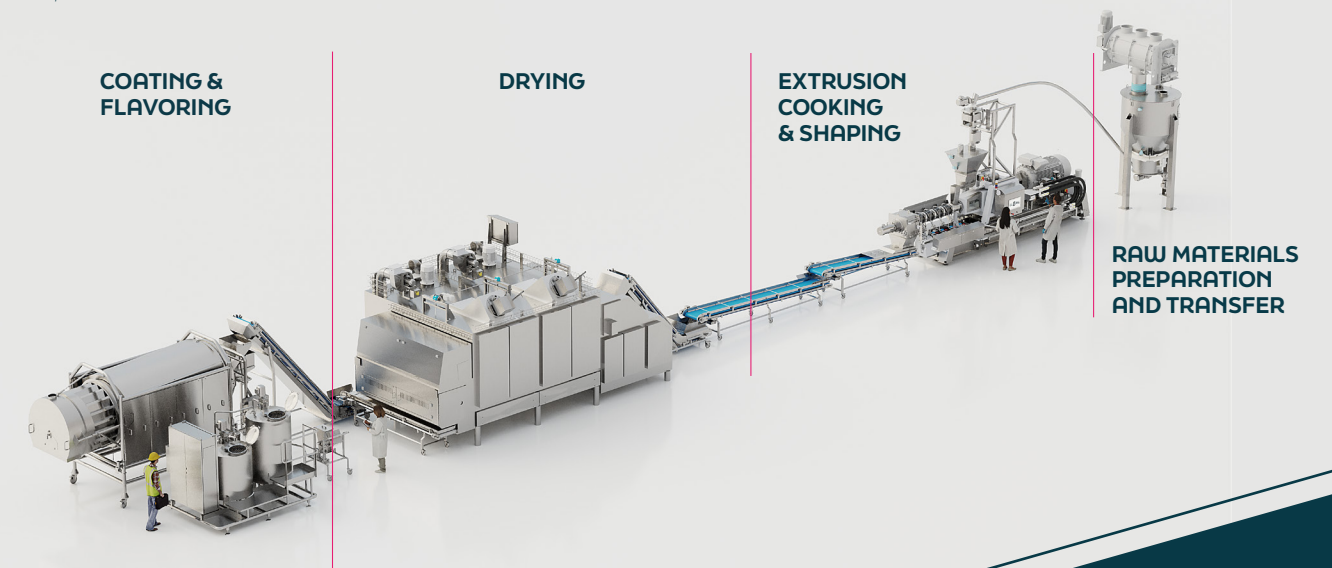

PROCESSING LINES

Renowned for their reliability, our production lines leverage over 70 years of proven expertise in twin-screw extrusion and advanced industrial technologies, combined with a strong capability to develop tailor-made solutions.

Designed for flexibility and scalability, our twin-screw extrusion lines address present and future customer needs, integrating all peripheral equipment and after-sales services required to deliver optimal performance.

Snacks production line

Each CLEXTRAL project is designed as a coherent system, ensuring optimal performance at every stage.

INDUSTRIES

FOOD RAW MATERIAL PROCESSING

- › Puffed snacks
- › Breakfast cereals
- › Plant-based proteins
- › Functional ingredients
- › Crispbread
- › Couscous and short pasta
- › Pet food
- › Aquaculture feed

BIOMASS CONVERSION

- › Biomass conversion
- › Bio-based materials
- › Fiber modification

DEVELOPMENT OF NON-FOOD MATERIALS

- › Energy materials
- › Plastic & Recycling
- › Chemistry
- › Miscellaneous
