Anhui Lesui New Material Co.,Ltd

COMPANY PROFILE

Anhui Lesui New Material Co.,Ltd

Anhui Lesui New Material Co.,Ltd.founded in Shanghai in 2013, with a total investment of over 30 million US dollars. The company owns “Lesui” , “rESG”, “Lexian”and “Shuguole” brand. The company is committed to promoting the spirit of craftsmanship and focusing on providing safe, hygienic, environmentally friendly and innovative food-grade packaging containers. Its current products include food packaging containers for fruits and vegetables, baked cakes, fresh food, pre-prepared foods, and catering. The annual planned production capacity is more than 60,000 tons, and the annual output value is about 90 million US dollars. There is a nearly 710,000 square foot production base in Chuzhou, Anhui, with a total plant area of more than 7 00,000 square foot. The company has established service and logistics distribution centers in key cities (Shanghai, Zhejiang, Chengdu, Beijing, Guangzhou, Anhui) to achieve rapid response and cooperation across regions.

Self-built Factory
The annual planned production capacity is more than 60,000 tons, and the annual output value is about 90 million US dollars. The existing production base in Chuzhou, Anhui Province is nearly 710,000 square feet, and the total factory area exceeds 700,000 square feet.

Factory Strength

12 German KIEFEL KMD78 fully automatic production lines

20 domestic advanced automatic molding cutting punching machine

9 sheet extrusion lines

100,000 GMP purification production workshop

The company has passed BRC, GRS, WCA, BSCI, ISO 9001, ISO 14001, ISO 45001, ISO22000, FSSC22000, halal certification and other management system certifications. In order to ensure product quality and full-chain service advantage system, the company has built a 100,000-level GMP clean production workshop, laboratory, mold factory, and formed a professional R&D team. At the same time, it has introduced 21 German KIEFELD KMD78 fully automatic production lines, 20 domestic advanced fully automatic forming, cutting and punching machines, 9 sheet extrusion production lines and cup making machines and other equipment.

Professional Teams

The company invests heavily in product research and development, and has a research and development team of nearly ten people. Drawing design,
mold development, new product research and development of timeliness and innovation ability in the industry is far ahead. In the field of food packaging has accumulated deep technical reserves, with leading mass production technology capabilities and capacity advantages. The company has a number of independent intellectual property patent technology and technical research achievements.
The company has more than 200 square meters of autonomous microbiology laboratory, Equipped with high pressure steam sterilization pot, binocular biological microscope, electric thermostatic oven drying box, electric thermostatic water bath box, ultra-clean workbench, electronic balance, ultra-low temperature freezing freezer, ultra-high light transmission tester, high strength tensile tester, high strength stripping tester and other advanced test equipment, for the physical and chemical properties of products and microbial properties testing (heavy metal testing, total migration testing, negative Weight, elongation at break, tensile strength, light transmittance, E. coli, microorganisms, mold).

Autonomous Microbiology Laboratory --

Industry Leading Brands

The company invests a lot in product research and development, and has a research and development team of nearly ten people. We are a forerunner of the industry in drawing paper design, mold development, new product research and development time efficiency and innovative ability. In the field of food packaging has accumulated deep technical reserves, with leading mass production technology capabilities and capacity advantages. The company has a number of independent intellectual property patent technology and technical research achievements.

BAKERY SERIES

Sealing film

Customized PET tray + PET lidding film.

1

Highly transparent and anti-fogging film, easy to see the delicious flavors of bakery products.

3

Customized sealing film can be printed

2

Barrier material, no air leakage
Keep the original flavor of food tightly
Extend the shelf life of food

Customized Case

Materials, barrier levels and application conditions can be customized to meet your product, cost, brand and performance needs.

The introduction of CPET Tray

>>CPET container with film

Applicable conditions
1. Good adhesion
2. Suitable for freezing in -40℃ environment
3. Easy to reveal
4. Bake resistant (200℃ -220℃)
5. Packaging usage: automatic sealing machine cutting, sealing, sealing temperature 175℃ -190℃ .

>>40°C to +220°C

CPET tray is resistant to high temperature 220℃ , low temperature -40℃ , can be heated in the oven, and the material is environmentally friendly and recyclable.

>>CPET trays are widely used in Airline catering

CPET food trays will not release any harmful substances. Safe to use in the refrigerator, oven, and microwave. Now airlines have started to use CPET food trays as lunch boxes, which will be a trend in the food packaging industry in the future.

>>CPET trays are widely used for bakery products

CPET trays are also used for bakery products such as desserts, cakes or pastry. These items can be unpacked and finished off in the oven or microwave.

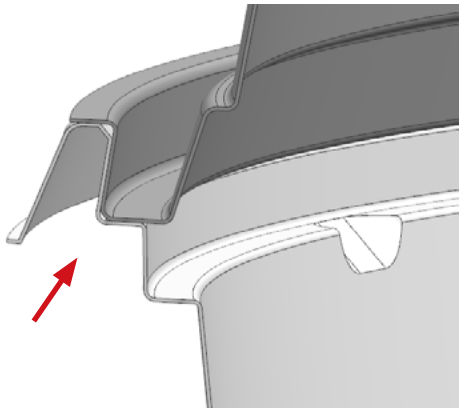

LESUI

Thermoforming film

>>Excellent stretch properties, can be customized in different shapes and thicknesses

>>Best flexibility, not easy to be punctured, high tear and puncture resistance.

>>High transparent lidding film, customize size

LESUI

Cling film

>>High transparency, good sealing, adhesion and strong toughness

Food grade material, with high transparency to show perfectly

Quality under the strictly controlled

>>All kinds of food can be packaged

>>Specification of Cling film

PVC Cling Film 30cm*400yd(340m)

Thickness Packing:11μm
Packing: 6 rolls/ctn

PVC Cling Film 35cm*400yd(340m)

Thickness Packing:11μm
Packing: 6 rolls/ctn

PVC Cling Film 40cm*400yd(340m)

Thickness Packing:11μm
Packing: 6 rolls/ctn

PVC Cling Film 45cm*400yd(340m)

Thickness Packing:11μm
Packing: 6 rolls/ctn
