Welcome to Fabcon India

Hello (**नमस्ते**),

Since 1977, we are in business of providing Solutions for Snack & Food Industry. We Specialize in Customized Food Processing & Packaging Solutions & pride ourselves in delivering the best results by helping customer Go Live & realize their R.O.I within the defined budget & time line.

We master customization from Pre-Processing to Post-Packaging Solutions. We have been regularly meeting the diverse requirements of all our customers & have been regularly working with the Top Snack Manufacturers & OEM Companies in the Food & FMCG segment.

We are based out of Delhi NCR, India. Our setup is established over 100,000 square feet & has a motivated team of 150+ members. Our manufacturing facility is equipped with latest engineering technologies like Laser Cutting, Laser Weld, CNC forming, CNC Machining, GBB finishing & proper PDI area for Quality Assurance & Packing.

We have supplied & successfully commissioned multiple processing lines all over India & overseas. Our customers are a testament of our quality& services. We are already exporting to over more than 50 Countries including US, Canada, UK, Australia (APAC), Gulf & Africa (MENA). Our equipment are CE / CSA / ULC / SASO compliant & adhere to GMP to ensure Food Hygiene & EHS.

We sincerely hope to work with you & look forward to discuss your current & future requirements & address them to your full satisfaction.

Kind regards (**सादर धन्यवाद**),

AUTOMATIC FORMING AND COATING PRODUCTION

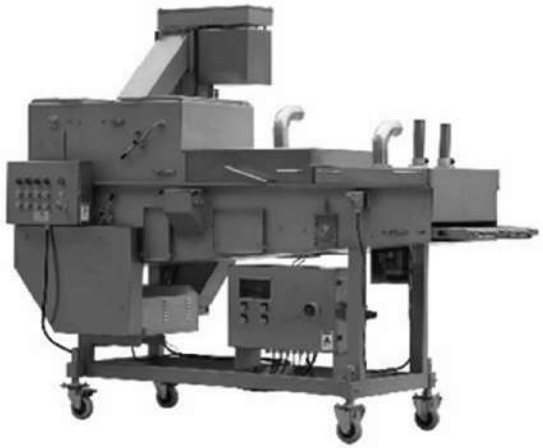

FORMING

Automatic forming machine, it can finish the filling, forming, discharging automatically.
Well-matched with battering machine, breading machine, frying machine, quick-freezer to form an full automatic production line.

BATTERING

Special design of batter pump can greatly reduce the cutting of the batter, less damage to the viscosity of the batter.
can be precisely combined to a forming machine, a breading machine or a fryer to realize the continue producting.

PREDUSTER

Predusting machine coat product with different types of four or dry batter mix. Predust will help improve the adhesion of the next step. Predusting machine can connect with battering machine to form a complete coating line for different product.

BREADING

Breading machine coats product with a layer of breadcrumbs.
Adapts not only to crumbs, but also to coarse crumbs. It is suitable for free-flowing crumbs.
Using frequency conversion speed regulation, easy to adjust, easy to realize standardized production.

VIBRATORY DISTRIBUTION SYSTEM

Advantages

- No Moving Parts
- Multiple Drops
- 100% Sanitary Rigid Construction
- Large Carrying Capacity... Good for Low Density Products
- Noiseless System Operation
- Fully Modular

GLIDECON-HORIZONTAL MOTION CONVEYOR

New Launch

Gentle horizontal conveying with a single-motor drive, minimizing product damage and ensuring efficient product flow.

Advantages

- Smooth Product Movement
- Reduced Product Damage
- Improved Efficiency
- Hygienic Design
- Reliable Performance
- Flexible Integration
- Reduced Manual Handling

Glide with Precision
Convey with Confidence.

Flexible Screw Conveyor

1. Suitable for Powder, Salt, Spices, Sugar etc
2. Flexibility in design
3. Quick and Easy Commissioning
4. Dust Free
5. Gentle handling
6. Low in Maintenance

Bulk Bag Discharge System

1. Volume & Weigh Based both options.
2. Suitable for all Bulk Bag types and sizes
3. Quick and Easy Commissioning
4. Dust Free
5. Bag tensioner
6. Massagers for complete discharge

Good For *SUGAR, SPICES, COFFEE, TEA, TOBACCO, RTE, RTD PREMIXES*
