rhima

Washing equipment for industrial, catering, and medical purposes.

Rhima specialises in custom built washing equipment focussing on cutting waste and maximising reuse in line with circular economy guidelines.

About our Company

Rhima specializes in providing equipment washing systems that prioritize impeccable hygiene and cleanliness for businesses, industries and environments.

Unlike other companies, this is the sole focus of our operations. Our washing systems are designed to be energy-efficient and ergonomic while delivering superior results for our clients at the most affordable rates possible. Now providing full automation including robots that work with your washing equipment to save on labour costs.

Environmental considerations are also a top priority, and Rhima has been implementing water-saving technology since 1990, which is now an essential aspect of all our systems. With ware washing experts in-house, we handle every project from initial consultation and design using the latest CAD software to installation, training, commissioning, and ongoing maintenance across Australasia. Simply put, just as you specialize in your business, Rhima specializes in providing top-quality washing systems.

How you will Benefit

Rhima can supply whatever you need to streamline your washing processes and achieve maximum efficiency at minimum cost.

A-Z project management

Whether your project is simple or extremely complex, the Rhima approach will be the same:

First, our dedicated and approachable consultants will listen to you carefully, helping to clearly identify what you want to achieve.

We will then develop a meticulously detailed list of the equipment and systems necessary to fulfil your objectives.

Our solution will minimise labour and energy costs, address environmental responsibilities and comply with all health and hygiene standards and relevant legislation.

Finally, to protect your investment, we will also make sure that the people who will be operating your washing equipment are fully trained in how to use it properly.

Reliable after sales service 24/7

Our technicians are trained to service everything we supply, so all of your Rhima equipment can be attended to.

Ongoing support is an integral part of Rhima's commitment to complete customer satisfaction.

All centres are co-ordinated to provide 24 hour service, 7 days a week.

After sales support service includes:

- Warranty
- Commissioning
- Training
- Consulting
- Work safety
- HACCP & infection control
- Preventative maintenance
- Detergent supply

Regular maintenance can be scheduled on a contract basis, if you prefer, and for complete peace of mind we can also conduct safety, hygiene and temperature tests from time to time to ensure that your equipment is operating according to required standards.

Our range of services

Industrial

Crate, tub and speciality washing. Rhima's extensive range of specialised equipment includes:

- Bread and vegetable crate washing. Rigid and collapsible crates, manual or fully robotic loading and unloading
- 120, 240, 660 & 1100 L bin washers
- Washing and drying machines for chocolate and confectionery moulds
- Wastewater pre-treatment systems to ensure compliance with local environmental regulations.
- Washing machines custom designed to meet individual requirements
- Logistics/crate pooling automation
- Pot & utensil washers

In general manufacturing, the need for perfectly clean products is becoming increasingly important. Rhima's technical know-how can be applied to cleaning light engineering parts and components that need to meet high QA criteria.

Hospitality

Glass, dish and pot washing
Everything from small bench top washers for coffee shops to completely automated dish-handling systems for large catering operations.

- Underbench dishwashers
- Glasswashers
- Benchttop washers
- Pass through dishwashers
- Drying systems
- Rack conveyor dishwashers
- Sorting & unloading robots
- Stainless steel benches
- Sorting tables
- Water purification systems

Medical

Infection control, instrument and ward washing/disinfecting. Rhima offers complete infection control solutions, and hospitals in particular find it of great benefit to have one supplier for catering, ward and CSSD/TSSU washing and cleaning equipment:

- Instrument washer-disinfector
- Bedpan washer-disinfector
- Washer-disinfector-dryer combination machines
- Dryer cabinets
- Pharmaceutical IBC washers
- Waste management solutions
- Aged care facility solutions
- Carbon filter kits
- Variety of medical racks for various equipment and products
- Dirty utility room shelving

Our track record

Rhima is an independent Australasian company drawing on 50 years' experience in solving ware washing problems. As Australasian specialists in washing technology, we offer unparalleled knowledge, experience and expertise. Since establishment in 1990, our innovative approach and 'can do' attitude - together with access to some of the world's most advanced technology - have delivered over 15,000 equipment washing solutions across a wide range of applications including:

- Healthcare institutions
- Pharmaceutical
- Medical research
- Aged care facilities
- Restaurants
- Hotels
- Cafes & bars
- Sporting venues
- Casinos
- Schools
- Automotive
- Food processing
- Supermarkets
- Wineries
- Airlines
- Ships
- Offices
- Staff canteens
- Special manufacturing
