

**Viscofan** *Reshaping food and wellbeing.  
For many, for long.*

# Veggie Casing

The number of consumers who include products of plant origin in their diet has increased considerably in recent years. To meet this current demand Viscofan has developed an extraordinary edible veggie casing.

An excellent plant-based casing, specially developed for use in vegetarian and vegan recipes. Addressing health concerns with its unique characteristics such as gluten-free, GMO-free and allergen-free.

Being 100% vegetable makes it a preferable choice for sausages that face religious, legal or labelling restrictions.

This casing is suitable for fresh and cooked applications, showing good frying ability and a super-tender bite.

As for other edible products in the Viscofan Group, this is a "ready to use" casing, presented in a stick format that is easy to stuff and handle. It can be used with existing meat stuffing, linking and processing machinery.

Being edible, there is no need to peel it. It enhances sensorial levels by adding a covering that gives structure and bite to the final product.

Please welcome our new, remarkable edible vegetable casing. Viscofan Veggie casing. A must.

# VISCOFAN VEGGIE™

*A vegetable alternative to help you expand your product scope and meet current demands.*

## 100% Vegetable

An extraordinary plant-based casing 100% vegetable, that makes it a preferable choice for foods that face religious, legal or labelling restrictions. Kosher certified.

## Veggie segment

It is not only for consumers whose diet is 100% vegetable-based; but also for those who are giving even more relevance to these types of products.

## Vegetarian and meat applications

It is specially developed for use in vegetarian and vegan recipes, but can also be used in meat products. This casing is suitable for fresh and cooked applications, showing good frying capabilities and super tender bite.

## An edible casing

Being edible, there is no need to peel it. It enhances sensorial levels by adding a covering that gives structure and bite to the final product.

## Ready to use

Viscofan Veggie casing is presented as a 'ready to use' casing, offered in a stick format that is easy to fill and handle. It can be processed on existing meat stuffing, linking and packaging machinery.

## Caliber sizes

Current availability of the most common caliber sizes for these kinds of applications: 19, 21, 24, 26, 28, 30 and 32 mm. Shirred in 50' closed end sticks.
