EFFECTIVE**

Water-activated tapes are environmentally friendly, kraft-paper tapes with a water activated starch-based adhesive.

These tapes bond instantly to both virgin and recycled fiber such as corrugated carton and paper surfaces. Therefore, generate an immediate destructive bond resulting in a tamper evident package.

Water-activated tapes are ideal for a variety of climate conditions with a wide range of operating temperatures. The tapes will consistently perform between 0°C and 50 °C.

Water-Activated tapes also perform flawlessly in dusty environments, on corrugated with high post consumer contents and even on corrugated that has previously been sealed and must be securely resealed.

CODE	DESCRIPTION
1180	Automatic WAT Dispenser - 240v
1182	Gummed Paper Tape 70mm x 200m Non-Reinforced
1181	Gummed Paper Tape 70mm x 150m Reinforced
1183	Gummed Paper Tape 70mm x 305m Reinforced
