

RECYCLABLE PACKAGING

WE MAKE...

Stretch Wrap

Heat Shrink

Films/Sheets

Bags

WHAT IS ADVENT STANDARD?

Advent Standard is our line of **recyclable packaging** solutions. Using blown-extrusion and castline processes, we manufacture bags and films.

WHY CHOOSE ADVENT STANDARD?

Our recyclable packaging offers **long-term durability** and reliability for various applications.

1

USING RECYCLED MATERIALS

Our bags and films can be made from 100% recycled materials. This means diverting waste away from landfill!

Note: all food grade products are made from virgin materials only.

2

100% RECYCLABLE

Our Advent Standard product line is entirely recyclable! Be part of a closed-loop economy and choose recyclable packaging.

3

ZERO COMPROMISES

Recycled packaging can have its compromises, but we only use the best polymers for quality assurance and customer satisfaction.

4

IN-HOUSE RECYCLING

By supporting us, you're supporting a company that practices what it preaches. We do our own recycling to minimise wastage.

WE DO POST-PRODUCTION RECYCLING, IN HOUSE!

see back for more info...

STRETCH

We supply customisable multi-layer cast stretch wrap for hand and machine-use. Our stretch can be coloured with a tint or printed with your personal branding.

Popular specifications:
Width: 100mm / 250mm / 500mm
Gauge: 12 - 25um

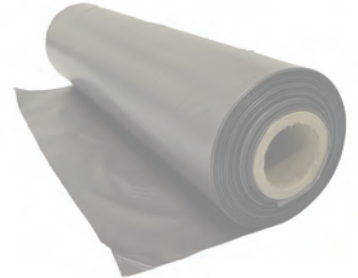

FILMS

We manufacture medium to heavy-duty films suitable for industrial applications.

Customisation options:

- Perforation or hole punch
- Monolayer or multi-layer (co-extruded)
- Printing (up to 7 colours)
- Custom colour

BAGS

We manufacture specialised bags for industrial and commercial applications e.g. food-grade bags, anti-static bags. Our bags can be customised in terms of colour, printing and packaging options.

Customisation options:

- Single or double sealed
- Optional handles
- Additives: VCI, UV, anti-static, flame retardant, etc.

SHRINK

We manufacture customisable heavy-duty shrink film primarily for industrial applications. Our clients typically use them to efficiently secure and protect pallets, large machinery and vehicles.

Customisation options:

- Coloured shrink
- Printing
