- JANITORIAL**
- STRETCH WRAPPING**

# Introducing our **Eco-Friendly** Product Range

## The Benefits

Eco-friendly packaging is a great way to reduce your environmental impact and save money. It's also better for your customers, who will appreciate the extra effort you've taken to make their experience more enjoyable.

## The Future

The future of eco-friendly packaging is bright. Manufacturers are constantly innovating, finding new ways to reduce waste and use materials efficiently. In addition, sustainable production methods are becoming more common as people become more aware of how their actions affect the environment.

There's no reason why you can't be part of this movement! If you're looking for an easy way to make a difference in your community or on a global scale, start by choosing eco-friendly packaging products over standard conventional packaging options, whenever possible.

**Reduce, Reuse, Recycle** – these three 'R' words are an important part of sustainable packaging and living, as they help to cut down on the amount of waste we have to throw away.

- **Reduce** the amount of waste you produce.
- **Reuse** items as much as you can before replacing them.
- **Recycle** items wherever possible.

Using the 3 'R's also helps to minimise the amount of space needed for landfill sites, where waste materials are disposed off.

## Ranpak Fillpak TT Void Fill System

- Fillpak paper packaging material provides an effective way to fill empty spaces in boxes, protecting and preventing products from shifting in transit
- Fast and effective void-fill material
- Variety of converters: Manual, TT and TT Cutter systems

## Ranpak Geami Wrapping System

- The Geami WrapPak system automatically expands die-cut kraft paper into a 3D honeycomb structure that protects products against scratching, surface abrasion and minor handling incidents
- Outstanding in-the-box presentation and unboxing experience
- Perfect alternative to bubble-wrap
- Variety of converters: Manual, HV, Ex Box and Wrap 'N' Go

## Ranpak PadPak Cushioning System

- PadPak protective packaging paper is a versatile cushioning packing material used to protect fragile products packed manually into shipping boxes
- The converter forms the paper into a protective, shock-absorbing paper pad, using a patented folding and stitching process
- Ideal alternative to air pillows and quick foam solutions

## Ranpak WrapPak System - Cold Chain Solution

- The WrapPak Protector creates wavy paper pads to solve challenges across many different packaging environments and applications
- Unique properties mean that our paper pads offer excellent protection across a wide range of applications, from box lining to thermal insulation (cold-chain solution)
- Ideal alternative to Styrofoam boxes, Aluminium Foil liners & Bags

## BIOFILL

- Made from corn starch
- Used to fill voids and effectively blocks and braces products inside the carton, provides exceptional resistance to shock & high pressure
- 400L bags

# TAPE

## Tesa 4713 Paper Carton Sealing Tape

- General purpose packaging tape made with a paper backing and natural rubber adhesive
- Suitable for light-weight packaging (max – 10kg)
- Only responsibly and sustainably sourced certified paper is used from well-managed FSC® - certified forests
- 50mm x 50m & 150mm x 50m

## Tesa 58156 - 100% Recycled Plastic Tape

- Made from 100% recycled plastic material.
- Strong PP backing
- Solvent-free adhesive with high UV-resistance
- 50mm x 66m

## Tesa 60400 - Bio-based Packaging Tape

- 98% bio-based carbon content
- Suitable for medium-weight cartons (max 30KG)
- Available in hand and machine rolls
- 50mm x 66m & 50mm x 1000m

## Tesa 60412 - 70% Post Consumer Recycle PET Packaging Tape

- Based on 70% Post-Consumer Recycled PET backing
- Excellent adhesion on recycled cardboard
- Suitable for medium-weight cartons (max 30KG)
- Available in hand and machine rolls
- 48mm x 66m & 50mm x 1000m

## Kraft Water Activated Tape

- Environmentally friendly, made from natural kraft paper
- 100% biodegradable & recyclable
- Water activated adhesives penetrates into the fibers of a carton providing a superior seal
- Manual and Automatic Dispensers available

## Honeycomb Padded Mailers

- 100% Recyclable
- Made from 100% kraft paper, making it a suitable sustainable alternative to plastic mailers
- Available in a variety of sizes

## Jiffy Padded Bags

- 100% Recyclable – Curbside recyclable
- Strong construction that provides cushioning and rigidity
- Available in a variety of sizes

## Logistrap

- A reusable strap that reduces costs and scrap caused by shrink wrap and metal/plastic banding
- Quickly secure goods with an easy to open and close fastener
- 50mm x 5m

## BIODEGRADABLE STRETCH-WRAP

- Landfill-biodegradable, Accelerated approximately 90%+ faster than conventional stretch-wrap
- Made from 50% post-consumer recycled plastic
- Available in hand and machine rolls
- 500mm x 400m & 500mm x 1500m

## EcoShred Packaging Carton Shredder

- Converts existing corrugated cardboard boxes into high quality, versatile packaging
- Shredder can produce 3 types of packaging matting
- Reduces costly use of bubble wrap, plastic chips, air fill

## Tork Clarity Foam Soap

- 99% Naturally derived ingredients
- Readily biodegradable formula
- 2,500 doses per cartridge
- Can fit in current S4 systems

## Cleaning Cloths

- 100% biodegradable
- Suitable alternative to mixed assortment rags
- No contamination, buttons, zips or pins
- Ideal for oil and grease and general purpose cleaning

## Triple Wall Corrugated Paper Cups

- Triple wall hot cup offers superior insulation
- Heavy-duty rigid food grade board
- Available in 8oz & 12oz

## Wooden Cutlery

- 100% Compostable
- Coated in food-safe wax for extra smooth feel
- Spoons, Forks, Sporks, Knives all available
- 160mm high

## Robopac – Reduce your plastic stretch film consumption

### Masterplat Plus PGS

- Fixed Geared 250% pre-stretch carriage
- 7 Program memories
- Interactive LCD display with JOG
- Available in low-profile – 30mm thick base

### Rotoplat 708 PVS

- 7in Touch Screen Display
- 12 program memories
- Variable pre-stretch carriage up to 400%
- Mechanical roping available – alternative to strapping and stretch tape
- Available in low-profile – 30mm thick base

### Technoplat 708 PVS CW/CS

- 7in Touch Screen Display
- Variable pre-stretch carriage up to 400%
- Clamp, cut and swipe or weld system
- Remote control – no need to exit forklift
- First step into automation

### Robot S7 PVS

- Self-propelled semi-automatic unit
- Ideal for multi warehouse location use
- Variable pre-stretch carriage up to 500%
- Suitable for pallets of most shape, size and weight
