ONE STOP SUPPLY PACKAGING

We are the first leading manufacturer that specialize in Edge Protector and Packaging Materials since Year 1997 in Malaysia.

Exporter of Edge Protector and Packaging Materials in Asia countries, Australia, New Zealand, and more.

Let's explore our CFL's green products as optimized packaging solution for sustainable future.

PAPER PRODUCTS :

CFL's paper products:

- Made of 100% fully recycled paper (No Mixed Paper) and Organic glue (Chemical-Free).
- Complied with 4 major compliances: **TSCA**, **PFAS**, **REACH**, and **ROHS**.

Paper products that adhere to compliances are beneficial:

- **Environmental Regulations**, environmentally-friendly practices and reduce negative impact on environment.
- **Sustainable Sourcing**, protect biodiversity, maintain forest health, and prevent illegal logging.
- **Certification and Verification**, that products meet specific environmental and social criteria.
- **Customer Confidence**, demonstrates commitment to sustain ability and responsible practices which enhances reputation and build trust.
- **Consumer Safety**, ensure product is safe to use, meet specific quality standards, and no chemicals and toxic.

Paper products are recyclable and green towards the earth:

- **Conservation of Resources**, such as trees, water, and energy.
- **Waste Reduction**, volume of waste and environmental impact of waste disposal is reduced.
- **Circular Economy**, reused and recycled rather than disposed of after a single use to ensure minimizing waster generation and maximizing resource efficiency.
