**Eco – Thermal equipment :** Since 2017 China government have very strict requirement about the environmental issue. ZXPack have took 650 thousand dollars to install an Eco – Thermal equipment which can recycle the solvent. This solution can control the solvent emission and meet government's requirement.

**Advantage: ZXPack** have quality system and always insist on "Quality First, Reputation First, Customer First". We have our own independent laboratory and necessary detecting instruments. From the raw material to finished products, every step is tested strictly to check the qualification of products. Our packaging have been approved by USA, European, Australia, Japan, NZ, Africa customers.

**SELECT YOUR CATEGORY**      **SELECT YOUR CATEGORY**

**AVAILABLE FUNCTIONS :**

- ✓ 121-135 Celsius degree sterilization
- ✓ Puncture resistance
- ✓ No delamination, No leakage
- ✓ Excellent barrier
- ✓ Vacuum available
- ✓ Long shelf life
- ✓ Freshness keeping
- ✓ Matt finishing

**AVAILABLE APPLICATIONS :**

- ✓ Meat & Fish
- ✓ Cooked Food
- ✓ Seafood
- ✓ Chestnut

**AVAILABLE STRUCTURES :**

- ✓ NY/Retort CPP
- ✓ PET/NY/Retort CPP
- ✓ PET/AL/NY/Retort CPP
- ✓ SIOX PET/NY/Retort CPP
- ✓ ALOX PET/NY/Retort CPP

**High-Temperature Retortable Pouch**

**Environment & responsibility recycle**

We devote ourself to improving the product quality & service, and also the social responsibility.

Environment responsibility is one necessary business for us, we have install an Eco – Thermal equipment in 2017 to recycle the solvent. This solution can control the solvent emission and meet government's requirement.

At the same time we will focus on:

- Meet local environment legislation & regulations & permission.
- Respect environmental pollution.
- Dispose of waste properly.
- Control wastage and reduce waste.

Environment Eco – Thermal equipment
