Shanghai Ailu Package Co., Ltd.

Qualification Certification

Environment friendly paper packaging

Valve Bag:
Strength:
 1.High speed filling: High porosity paper, Pin hole perforation. High speed filling and moisture-proof.
 2.Valve Diversity: packaging cleaner, better moisture-proof performance, neat palletizing, easy transportation.
Application:
 Building materials, food, chemical, mineral, powder or granule.

Sqaure Bottom Bag:
Strength:
 1.Stable palletizing Clean appearance.
 2.Excellent WVTR and OTR barrier performance.
 3.Hygienic for food and pharmaceutical grade products.
 4.Accurate and safe filling.
Application:
 Rice, Flour, Coffee, Maltodextrin, Citric acid, Pet feed, Sugar, Salt.

Pinch Top Bag:
Strength:
 1.EVOH barrier film and paper aluminum composite as inner layer to extend the shelf life.
 2.no sewing, no pollution, airtight, anti caking.
 3.Filling and sealing are extremely convenient, suitable for large-scale assembly line operations.
Application:
 Milk powder, coffee powder, protein powder.

Sewn Open Mouth Bag:
Strength:
 1.Generally with gussets and composed by Kraft paper or extensible paper
 2.Paper and PE composite. Straight filling from top opening. Mouth to be sewn after filling.
Application:
 Chemical raw materials, plastic materials, dry powder building materials, fine minerals, nanomaterials, food additives, etc.

Industrial plastic products

PE valve bag:
Strength:
 1.Dust control: effective dust control by the coordination of labyrinth design, barrier deaeration and filling machine.
 2.Optimal palletizing type: firm structure, decent palletizing effect.
Application:
 Building materials, food additives, chemical powders, synthetic materials, minerals.

FFS 3 ply Co-extruded heavy-duty film:
Strength:
 1.Free from contamination of dirt ,mold and moisture.
 2.Breakaway seams remove outer film without residue.
 3.Outer and inner liners are printable and more promotional.
 4.One off shape forming, filling and sealing.
 5.Good moisture-proof, special labyrinth design.
Application:
 Milk powder, Food additives, Pharmaceutical products, Granules.

☑ Stretch hood

☑ Thermoplastic sheets

Intelligent filling line provider

Revopac is not only a manufacturer of packer machines but also an integrator of the entire packaging lines. We have the ability to provide customers with complete packaging line solution including conveying, palletizing, and stretch hood equipment.
