CELLULOSE TAPE

Cellulose tape is made from a transparent, compostable Cellulose film that is friendly to the environment. The tape can be easily torn by hand, making it ideal for applications such as sealing, fixing or mending. The perfect option for general applications in schools, the office or at home.

Features

- Highly transparent Cellulose film coated with a Natural Rubber adhesive
- Easily torn by hand
- Can be removed cleanly without leaving residue
- Environmentally friendly tape option
- Natural Rubber adhesive provides high adhesion on a wide range of materials

Applications

- Perfect for the Environmentally friendly office
- Great for sealing plastic or metal containers to protect from moisture
- Ideal for sealing, packing or mending
- Can be used with or without a dispenser
