**QINGDAO OCEANKING TIANYUAN PACKAGING PRODUCTS CO., LTD.**

# | About Us

OCEANKING PACKAGING was established in 1994 as TIANYUAN PRINTING for printed packaging products. The head office is located in Qingdao, supported by producing centers in Qingdao and Jining to set up the global sales network as a Shangdong-based company.

Our leading products are flexible plastic packaging products made from laminated materials or single resin materials, recyclable or recycled. We are always dedicated to the best quality and advanced technology and solutions for the customers various demands. Our manufacturing is certified under ISO9001 and BRC.

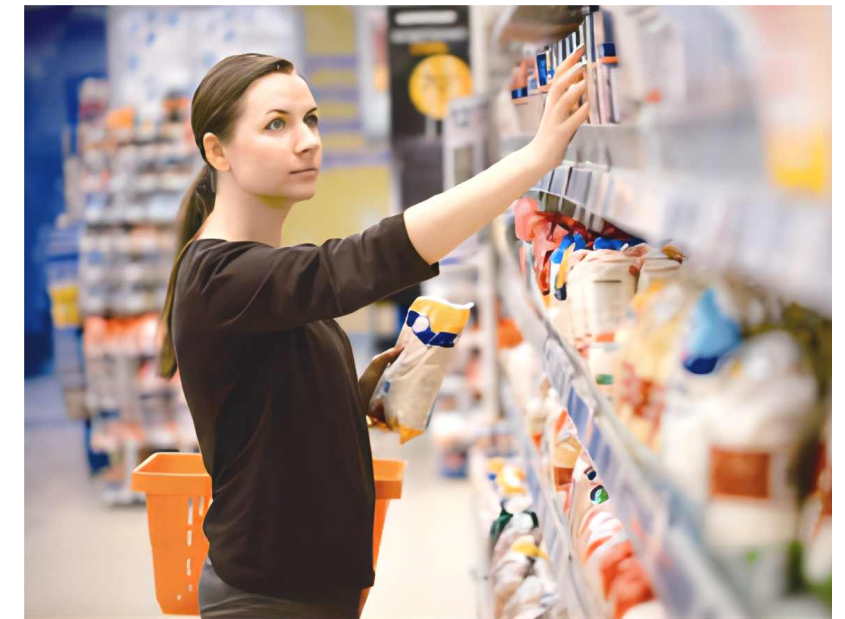

We take “meet the demand of the customers and the market” as the target, focus on quality control and production competitiveness, and can provide one-stop service from design to delivery including after-sales.

Besides flexible plastic packaging, we can also supply other relative packaging products like cartons, cardboards, labels and assembling work if needed, and ship to customers together in one shipment so we provide comprehensive packaging service and save customers sourcing cost.

We are one strong team and we are in one team with you. At Oceanking Packaging you just talk to one of us and rely on all of us team work for what you need with the best quality packaging, service and solutions to your demands at competitive price.
