

Evergreen

OUR MISSION

Beyond manufacturing, a partner for global sourcing and comprehensive packaging solutions.

At Evergreen, we develop, manufacture, and ship packaging products globally. Our network of over 150 leading manufacturing facilities offer a wide range of packaging products in glass, metal, and plastic. From facility audit, to quality control, to logistics, we are dedicated to providing the support you need every step of the way.

HOW WE WORK

Scale & Flexibility

We have qualified over 150 leading facilities around the world to support a wide range of projects and volumes

Quality Assurance

Our QC teams are onsite for all productions; our QA lab provides offline testing support for all projects

Responsive Support

Dedicated global teams provide <24 hour response time 7 days a week and 30-45 day production lead time

Reliable Shipping

Over 99% on-time delivery and no payment until delivered (compared to industry standard of 30% deposit)
