PTO-9-T TROLLEY MOUNTED TAKE OFF TRANSFER BELTS

PTO-9-T TROLLEY MOUNTED TAKE OFF TRANSFER BELTS

Our PST-8 Sorting Table is designed to reduce the number of operators required to load and pack off from an automatic line. Containers can be randomly placed on the PST-8 sorting table where they are automatically fed to the conveyor for filling, capping or labelling.

This table features a robust and durable 316 stainless steel design to ensure an endurable product requiring minimal maintenance. This table features levelling jacks and rubber feet to ensure the correct height is applicable for any line. Additionally, the frame is atop of lockable castors/wheels to ensure simple installation onto any line. The 1200mm HDPE table will cater to a large number of containers minimising operator input.

SPECIFICATIONS

- **Weight:** 120 kilograms.
- **Length:** 1200mm.
- **Width:** 1200mm.
- **Height:** 900mm.
- **Power Supply:** Single phase 240V, 10 Amp.
- **Construction Type:** 316 stainless steel and HDPE table top.
- **Mounting:** Lockable castors and levelling jacks.
- **Industries:** All food, pharmaceutical and industrial applications.
- **Noise:** Low.
- **Speed:** Variable speed control.
