BROWN BAGS

For a Greener Planet

With a manufacturing expertise that goes beyond 40 years, KPPL believes in transforming the way packaging is perceived. Our paper is procured from sustainable FSC® certified sources to make bags in our state of the art FSC® certified manufacturing facility.

An amalgamation of latest technology, fully automated machines and a strong workforce of 650 makes us who we are today. Each bag at KPPL goes through an intense quality check and is produced using 100% recycled paper - ensuring a thoughtful procurement, customer satisfaction and a greener planet.
