

COLUMBIT EXPANDS PRODUCT PORTFOLIO WITH TMG END-OF-LINE PACKAGING SOLUTIONS

23 February 2024

Columbit, a leading supplier of high-quality processing and packaging equipment for the food industry in Australia, New Zealand, Thailand and South Africa, is delighted to announce its latest venture as the proud provider of TMG end-of-line packaging solutions. This exciting development marks a significant expansion of Columbit's product offerings, further solidifying its position as a premier supplier in the industry.

With TMG now part of its lineup of brands, Columbit continues its commitment to excellence by delivering a comprehensive range of automated systems designed to meet the diverse needs of its customers. TMG, renowned for its tailored end-of-line packaging solutions, brings decades of experience and expertise to Columbit's portfolio, empowering businesses to optimise efficiency, maximise productivity, and drive growth like never before.

As a trusted provider of processing and packaging equipment, Columbit is dedicated to delivering excellence in every aspect of its offerings. With TMG on board, customers can expect nothing short of the highest quality standards, meticulous attention to detail, and expert support every step of the way.

Columbit invites industry professionals to explore TMG's cutting-edge solutions and experience the TMG advantage. Whether it's automating end-of-line processes, enhancing efficiency, or driving business growth, TMG and Columbit are committed to helping businesses succeed.

Don't miss the chance to experience TMG's innovative solutions. Columbit will be showcasing TMG along with its other leading brands at the upcoming APPEX exhibition. Visit our booth to learn more about how TMG can revolutionise your packaging processes and drive success for your business.

To learn more about TMG products available at Columbit and discover how this new range can meet your food processing needs, visit our booth E110 at the upcoming APPEX exhibition in Melbourne on March 12-15th or contact us today for a personalised consultation.
