

FIORINI

FIORINI MEANS

2 PRODUCTION PLANTS

7 FOREIGN AGENCIES

90 MILLION € TURNOVER

300 MILLION SACKS
PRODUCTION CAPACITY

70% EXPORT WORLDWIDE

Since 1947 **Fiorini** has been making industrial paper bags that not only contain products, but also transport, enhance and protect.

Products from the Food, Chemical, Feed, Seed and Construction sectors.

Numerous International certifications testifying to the value of **Fiorini** bags, especially for sensitive worlds such as food and chemical: BRCGS Packaging Materials, FSSC22000, Halal and Kosher.

70% Export worldwide with over 35 states involved and outposts in Europe, America and Oceania. All the production is in Italy. Industry leaders as customers.

Fiorini is also Europe's leading manufacturer of bags without a built-in paper mill. But above all, **Fiorini** is a company that shares part of its gross profit with its employees, because everyone gets credit for the results. **Fiorini's** primary goals include caring for people, protecting the environment, and re-educating people on the fundamental importance of packaging to maintain the original value of products.

THE GLOBAL
LEADER IN
**ULTRASONIC
SEALING
VALVE SACKS**

For years, they have been
telling you that the contents
matters more than the packaging

OUR SACKS
DO NOT MERELY
CONTAIN.
