ERGONOMICS PACK

- + **ROBUST**
- + **MULTIPROCESS**
- + **HIGH SKIN**

FS 930 SMF

A packaging line adapted to all your productions

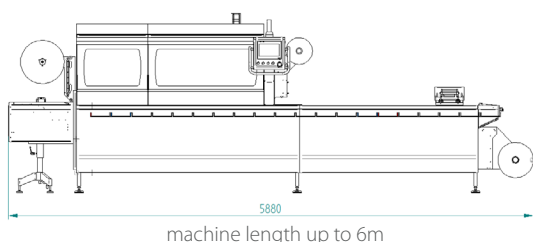

HIGHLIGHT :

- HIGH SKIN thermoformer
- Stocked machine for fast availability
- Skin application up to 50mm product protrusion
- Top film gestion with chains
- Preheating station for top film
- Ergonomic design with openable and manually locked top tool
- Independent lifting station
- Pneumatical station with mechanical locking by rods
- Longitudinal motorised cutting station with easy manual shaft exchange
- Multi process compatibility

ERGONOMICS PACK

It makes possible to carry out a complete change of format in a small time without tools

DIMENSION :

ENERGY :

Elec. : 15 at 30 KW

Pneu : 3m³/h at 6 bars

Water : 100L/h (integrated cooling unit in option)

PROCESS :

HIGH SKIN (Process compatibility with : Sealing / vacuum / vacuum and gas)

SPEED :

Up to : 10 cpm

PACKAGING DIMENSION :

Film advance configuration : 200 / 250 / 300mm

Film width configuration : 320 / 370 / 420mm

Pack dimension function of the step splitting

POUR LES SECTEURS :

OPTION :

Flex/flex process with vacuum | Rigid process with

vacuum and gas | Forming process with independent preheating station for bottom film thickness >400μ

Sealing plate automatic locking system for easy exchange without tool | Cooling unit | Integrated printing solution | Integrated tray inliner
