

NOBAC 5000

The new Nobac 5000 is Ravenwood's flagship applicator and our very latest innovation, building on the core functionality of our Nobac 500 range of machinery.

- Modular construction gives increased flexibility of use and machine configuration. Twin Head option is now retrofittable.
- More space for printers, allows for more possibilities for coding on labels and packs.
- Easier access from improved guarding
- Better label control from new upgraded brake system
- Optional motorised adjustment for product set up (coming soon)
- Repositioned electrical cabinet for easy Engineer access
- Optional cardboard tray coding systems.
