

# CODE ONE

## CODE ONE Reliability Program

= Coder + Consumables + Care

Is the cost of upgrades  
forcing you to live  
with troublesome  
coding and labelling  
equipment?

Are you tired of poor print quality, cost of coder or labeller maintenance or coders that keep breaking down? Do you spend too much time and effort on your coders and labelers?

We have the perfect solution.

CODE ONE is Foodmach's revolutionary program to provide industry leading technology at a fixed monthly cost, no surprises.

# FOODMACH

Automation | Robotics | Integration | Product Traceability

# CODE ONE

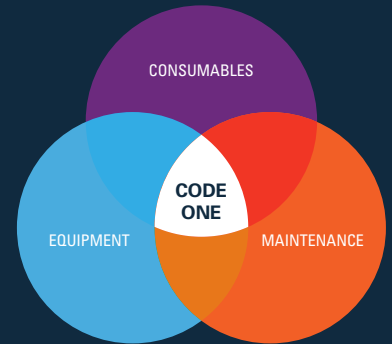

Now you don't have to worry about buying a printer, then consumables, then spare parts and then maintenance.

We take care of all the details for one fixed and low monthly charge which covers everything you'll ever need to place codes on products: the printer, spare parts, consumables and technical support is included.

We've been working with manufacturers for over 40 years, and we've found that coding and labelling is one technology area that needs updating. It should be easier and faster to manage the process of placing codes on products.

Ultimately our customers just want a reliable and simple product coding and traceability solution. Production line teams don't want to waste time maintaining it and ensuring the consumables and spare parts are always available.

And if your needs change, so does the program. Now you can focus on the business of making your product and getting it out of the door.

## BENEFITS

- Improved equipment reliability leading to increased uptime and OEE
- Lower overall operating costs with all maintenance included on the plan
- Controlled and fixed expenditure with consumables, spare parts and corrective maintenance included for easier budgeting and cost management
- No upfront capital cost and potential tax benefits
- No stock outs due to active supply management

## TCO

The program delivers a total cost of ownership solution easily matched to revenue with an option to either purchase or upgrade to latest equipment at end of term.

Ultimately, our goal is to provide you with a state-of-the-art coding and labelling solution at a fixed cost to reduce your workload, as Foodmach takes on increased responsibility.

Call us on **1800 366 362** to learn how CODE ONE makes coding simple and get started on a program today.
