PALLETIZER SERIES G 1000

The palletizer series G 1000 is a grip type bag palletizer. This series lets you overlap bags on the same layer. The bag handling principle employed by this machine makes it suitable for the most difficult products.

Our advantages:

■ Features

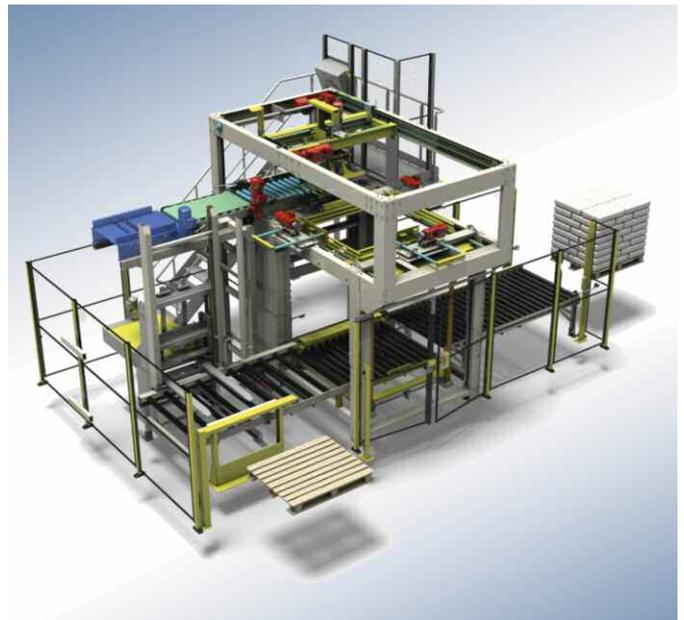

- the grip type bag palletizer is provided with a robotic bag handling tool that includes a gripping hand
- there are several models in the series covering a work rate of 500 to 1,200 bags/hr
- all usual packing pattern selectable via the program
- especially recommended for applications where bags need to be overlapped

■ Maintenance

- easy access to the inside of the machine for cleaning

■ Operational

- HMI allows manual operation and the modification of all parameters of the machine
- touch screen for machine menu and packing pattern program
- fully automatic palletizer without mechanical control
