## MECHANICAL SEALS

We offer a most comprehensive range of mechanical seals to suit a wide range of applications from basic single seat to complex engineered cartridge seals.

In addition we service all brands and styles of seals including grinding and lapping, component re-manufacture, pressure testing, new faces and seats, inserts etc

**INPRO SEALS**- the leader in air purged and bearing isolator sealing solutions.

Stevco Victoria are your authorised local INPRO agents.

Inpro seals offer sealing solutions for many applications:

### PRODUCT SEALS:

Air purged "non-contact" product seals. Ideal for dry product applications on Ribbon Blenders, Mixers, Rotary Valves, Screw Conveyors etc

### BEARING ISOLATORS:

The ultimate in bearing protection, keeps contaminants out and lubricants in.

## Tsurumi (pronounced Soo Roo Mee)

Global leaders ... Tsurumi Pump are a Japanese company, specialising in the manufacture submersible pumps that excel on the world stage. They have the capacity to build over 1.4 million pumps a year!

Unbeatable range ... Dewatering and industrial submersible pumps with over 1800 models.

Innovative design ... key features that enhance pump longevity and performance. Pumps deliver life cycle costs significantly below the industry average.

Quality guarantee ... Tsurumi's efficient, state of the art manufacturing facilities ensure the highest quality at the best possible price.

Types of submersible pumps produced:

Semi-Vortex, Vortex, Non Clog, Cutter, Mixed Flow, Axial Flow, Radial Flow, Contractor & Dewatering, Sewage & Wastewater, Aerators & Blowers, Decanting Units, Scum Skimmers.

## Grundfos

Grundfos is a global leader in advanced pump solutions and a trendsetter in water technology.

Grundfos contribute to global sustainability by pioneering technologies that improve quality of life for people and care for the planet.

Every day, the world faces major challenges, such as climate change and resource scarcity.

Grundfos strive to help solve these challenges.

Grundfos deliver some of the most energy-efficient circulator pump solutions in the market, by producing solutions to help water-related problems and by improving the design and production phase of those solutions.

## How can Stevco Victoria help you?

We supply a wide range of pump technologies including: Vortex, Open & Closed Centrifugal, Rotary Lobe, Horizontal & Vertical Multi Stage, Air & Mechanical Operated Diaphragm, Piston, Screw, Gear, Dosing, Mag Drive, Vacuum and Hose pumps.

We service and maintain a wide range of industries including: Water and Water Treatment, Waste Water, Pulp and Paper, Food and Beverage, Chemical, Pharmaceutical and Cosmetic and general industries.

We provide a complete OnCall service with dedicated, fully equipped service vehicles.

Our fully equipped workshop includes MIG, TIG and ARC welding, lathe, mill, press and hoist facilities.

Our engineering capabilities include: Re-Sleeving, Fabrication, Specialised Coatings, Pump modifications including custom sealing solutions and much more.
