

Paperfil® Void Fill System

The perfect sustainable paper void fill system for e-commerce packaging

Fast packing time | Cost-effective | 100% recyclable paper fill

Omni Group's Paperfil® Void Fill System has been perfectly engineered to improve the efficiency of the packing process for small to high production lines/ small workstations that require minimal set-up & storage space.

Paper is known to be the most resourceful packing material due to its abundance and quick recovery process. The paper fill is made from renewable kraft paper that's 100% recyclable (curbside) & compostable. It's versatility, durability, light-weight & low cost makes it perfect for void fill. Paper acts as a good shock absorber, protecting & cushioning your products during rough handling and transit. Less material usage also means lowering storage & shipping costs.

Features & Benefits

- **Ergonomic design:** This compact, free-standing machine on wheels offers the convenience for mobility & height adjustment to suit the operator.
- **Easy to operate:** With advanced technology & automation, this user-friendly machine is programmed with 4 modes of operation, designed to increase productivity by 30%.
- **4 modes available:** Loading, Pedal, Auto & Counter mode. Pre-configure your custom paper length (up to 1000 different lengths) for your continuous paper run for fast packing times.
- **Auto high-speed shooter:** Dispensing fan-fold lengths of paper at a rate of 72m per minute.
- **Flexibility to cut various lengths:** In-built is a high quality cutting mechanism to offer convenience and speed. Much more user-friendly than your traditional perforation, requiring manual tearing.
- **Smart automatic paper jam recovery:** Gain a hassle-free experience when it comes to paper jams (less than 0.05% jam rate). Low maintenance & greater uptime.
- **Longer lifespan on machinery:** Double the lifespan of a conventional paper dispenser with a brush motor.
- **Eco-friendly & sustainable design:** The paper fill used is renewable kraft paper that's ethically resourced and is 100% recyclable. An alternative to bubble wrap that's commonly used for void fill in the packaging industry.

Omni Paperfil Machine P100	
Product Code:	91.340
Dimensions:	684mm (L) x 452mm (W) x 324mm (H)
Adjustable Stand:	min. 1320mm & max. 1570mm (H)
Overall Weight:	39kg
Voltage:	240V
Power:	150W
Omni Paperfil 1 Ply	
Product Code:	91.345
Sheet Dimension:	380mm (W) x 500mm (L)
Thickness:	50gsm
Certification:	CE & FSC
