

Hex Padded Paper™

By Omni Group

Hex padded paper™ & dispenser

Your environmentally sustainable alternative to bubble wrap

Eco-friendly | 100% Recyclable | Renewable | Compostable

Omni Group's Hex Padded Paper™ is recyclable, responsibly sourced from renewable kraft paper. It's lightweight, durable, versatile & low-cost due to its resourcefulness. It's simple and innovative design effectively cushions & protects your fragile items during transit as well as save on costs and help the environment. It has the ability to interlock itself, eliminating the need for adhesives and expands to allow packers to wrap multiple items together through bundling.

Less packing material required and lightness will keep your shipping & storage costs low, while less steps involved with packing will increase warehouse efficiency & quicker packing time. The Hex Padded Paper™ comes on a roll that's easy to load & unload onto the Hexcel Dispenser. For additional padding, we offer a white interleaf paper, also available on a roll and can be placed on the dispenser. All 3 components work well together to produce a consistency in tension control & fast operation – easy tear with no cutting involved.

It's natural, brown paper-based & honeycomb structure not only provides an aesthetic appeal for presentational packaging, it's also a sustainable alternative to using non-renewable plastic bubble wrap (most commonly used in void fill packaging).

Features & Benefits

- **Hex Padded Paper™ is 100% recycled and recyclable:** made from renewable kraft paper that's lightweight, durable, versatile & low cost.
- **Damage protection:** Offers the same protection as bubble wrap but is more environmentally friendly.
- **Sustainable design:** Due to the easy recovery process of the Hex Padded Paper™, it can be reused over and over again, contributing to the environment and a circular economy.
- **Interlocking design:** This unique honeycomb, expandable, interleaving structure is self-sufficient in design so less packing material is used for dispatching.
- **Quick packing time:** Expect a 25-50% improvement on packing speed. Packers can also reduce their cycle times by wrapping multiple items together through bundling.
- **Save on storage space & costs:** 1 roll of Hex Padded Paper™ is equivalent to 20 rolls of bubble wrap.
- **Aesthetic appeal:** Create a memorable unboxing experience with Hex Padded Paper™ when it comes to your e-commerce product packaging.

Hex Padded Paper™ Dispenser	
Product Code:	91.360
Dimensions:	600mm (L) x 384mm (W) x 335mm (H)
Weight:	10kg
