

Whether you are packing cereal bars or pasta, you'll find your ideal solution with one of our NatureFlex™ products. Our range of renewable and compostable cellulose packaging films are available in high gloss clear, white, coloured, matt or metallised. They will enhance any packs on shelf appeal. Increasingly they are considered the natural choice for organic, Fair Trade and wholefood products.

## Sustainability Partnerships

### Alter Eco has chosen NatureFlex™ for its compostable pouches

San Francisco-based Alter Eco is using NatureFlex™ packaging film as part of the compostable pouch used for their organic and fair trade quinoas. The pouch meets ASTM D6400 standards for industrial composting, and is made from largely bio-based materials.

Our customer's story: Mathieu Senard, co-founder and co-CEO of Alter Eco

“Sustainability is the core of our business, and as a leader in this arena we've worked tirelessly to pioneer the first compostable pouch that will truly revolutionize the food industry. We're hopeful that this necessary, good-for-the-planet innovation will encourage other brands to follow suit.”
