Invented for life

SOLUTION

**Bosch Australia  
Manufacturing Solutions**

# Production Line Systems

[bosch-manufacturing-solutions.com.au](http://bosch-manufacturing-solutions.com.au)

# Efficient, effective and outputting higher quality parts

As a global leader in automation and Industry 4.0 products, our team have the knowledge and experience to integrate any components into a full production and processing solution.

Our production line integrations also extend into palletising and packing, with capability to palletise a range of products, and flexibility to pack multiple production lines simultaneously.

We can provide complete end to end solutions including logistics (stock movement and management), as well as offering complete IT, ERP and MES systems.

## Features

Seamless integrations where applicable

Global manufacturing knowledge

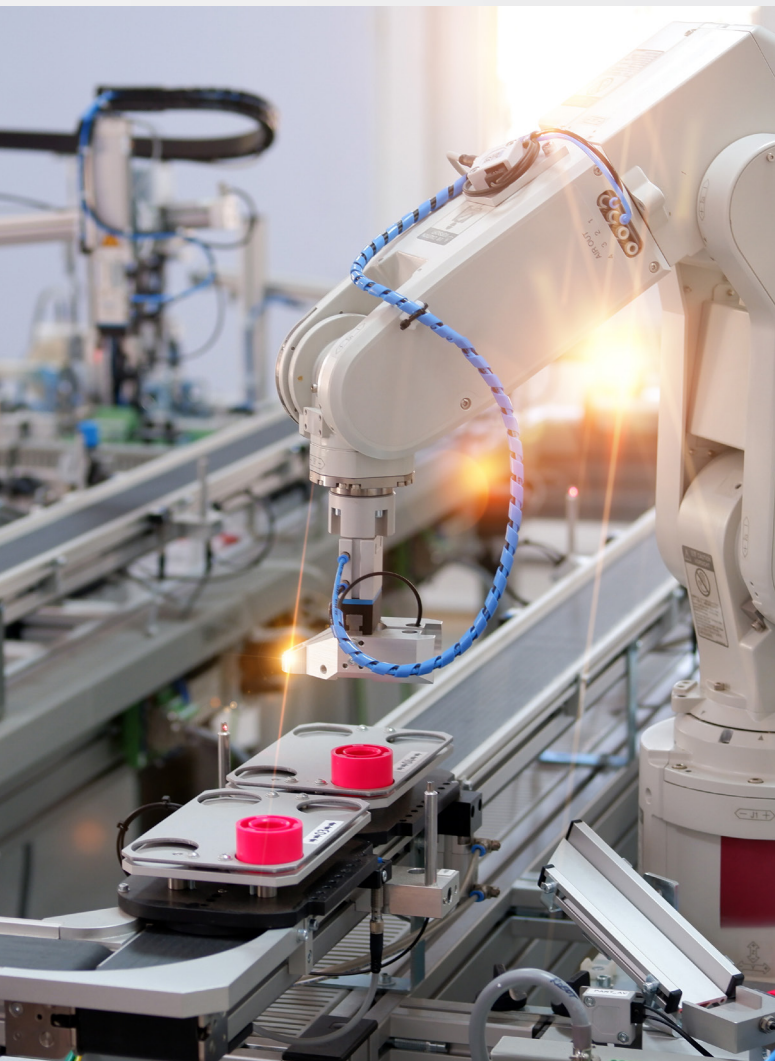

Scalable solutions

Fast & efficient production speeds

Highly accurate and reliable solutions

## Why choose Bosch?

With over 135 years of manufacturing expertise, we are the preferred supplier of advanced manufacturing solutions and integrations to Australian businesses.

For our customers we apply a 'global/local' approach meaning we draw on the experience, knowledge and resources of talent across the globe for manufacturing solutions here in Australia. This ensures we deliver solutions that are proven, reliable and world-class made for Australian businesses.
