

ASC continues to grow Nationally.

Automation System & Controls has been building its' National footprint over the last three years.

Initially the organisation worked solely from the head office located in Bayswater Victoria, sending out teams Interstate on a co-ordinated needs basis. It became clear that Australia wide there was a demand for the expertise and professionalism that ASC offers Australian Industry.

A long term plan was actioned and the building blocks were put in place to expand the coverage.

Approximately 2 years ago Ryan Hart, a Cognex expert from offshore, was employed with the sole focus to add service and support to NSW. Ryan now calls Sydney home and brings the full compliment of ASC services to the region.

In 2021 Rick Colling, a co-founder of Automation System & Controls, has made the transition to support the QLD region in a permanent capacity for over half of the calendar year. Rick brings an Industry pedigree unsurpassed amongst peers. He delivers premium care and knowledge to all Automation enquiries.

Automation System & Controls continue to support Australia with esteemed Engineers and Premium quality Products.

Ask for Ryan or Rick by name and have them be part of your solutions process.
