

Automation Systems & Controls Pty Ltd

Specialists in Automation Solutions

Training and Education

ASC pride ourselves on sharing our knowledge with our community. We actively run remote and face to face training sessions for all of our leading brands. The purpose of these is to help distribute important advancements in technology and to receive feedback on what our customer base needs.

The logo for Cognex, featuring the word "COGNEX" in black capital letters on a yellow rectangular background.The logo for Autonics, featuring the word "Autonics" in white capital letters on an orange rectangular background.

Partnering with local business. Research, Development & Trials

ASC has a team of specialised engineers who are encouraged to find the best solutions. To do this we need to investigate and demonstrate our findings. We have a fully purposed testing cell that can mimic most scenarios in real time. When sanctioned we can attend site to carry out co-operative tests and trials.

The logo for Advantech, featuring the word "ADVANTECH" in white capital letters on a dark blue rectangular background.

Enabling an Intelligent Planet

The logo for Control Techniques, featuring the words "CONTROL TECHNIQUES" in black capital letters, with a green circular icon containing a white 'C' to the right of "TECHNIQUES".

Accountability

With Innovation comes new ways to record data, review and report findings. ASC promote remote communications technology to strengthen Industry accountability.
