

## ASSET Packaging Machines have been proudly Australian Made & Australian Owned for over 40 years.

The Australian market is known for its quality and reliability which is why we are dedicated to keeping our manufacturing on-shore.

We are supporting Australian jobs and the Australian marketplace with this same quality and reliability that we are independently known for in the marketplace.

- At least 95% of the weight of your machine is Australian manufactured in-house
- At least 70% of the cost of your machine goes back into the Australian economy through local suppliers
- 100% of your machine is assembled and quality tested in-house.

**95% of  
machine  
weight**

**70% of  
machine  
cost**

**100% of  
machine  
build**

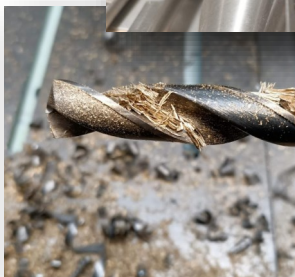

Our ongoing commitment to the Australian industry means we have numerous industry contacts to fulfil any additional need to your packaging requirements. This includes, but isn't limited to:

- Labelling & batch-code printing
- Check-weighing
- Automation & robotics

**GMP-Certified  
Packaging Machines**

All our machines have achieved base level **GMP Certification** with these documents available for purchase in addition to your machine. You are then able to tailor the remaining components to the specifics of your facility and product(s).

*Contact us today to see how we can work with you for the life of your packaging needs!*
