

Products & Services Capability

TRONICS®
A DIVISION OF **ALDUS**

At Tronics, our products are used by both small and large product manufacturers across several industries around the world. We have been in business for almost 40 years with offices in Australia, New Zealand, Malaysia and USA, and manufacturing plants in Australia and USA. Tronics has also been a Videojet distributor for over 20 years, and we manufacture and supply labelling and coding equipment, including parts, consumables, and technical install, support, and maintenance services. If you have a product that needs a label applied to it, a code, expiry date or general information marked on it, then Tronics can offer you and your business the right solution.

LABELLERS

MARKING & CODING MACHINES

SERVICE, REPAIRS & MAINTENANCE

PARTS & CONSUMABLES

With over 40 years experience, trust nothing less than the experts in the industry.

At Tronics, we work with customers to gain an understanding of our customers' requirements to ensure that anyone who buys from Tronics, does not just get a piece of equipment, all our customers get personalised service in line with their business needs, including:

- Local technical support during the design stage, to ensure our machines can be dropped in seamlessly into your existing or new production lines.
- Individual or packaged solutions specific to their industry for both small and large applications.
- A top of the range machine that is easy to operate and maintain, including training on how to operate our machines.
- Spare parts for machines and consumable products (such as inks, cleaning and make up solutions) in stock locally.
- Onsite installation support from our local engineering/technician team. Or you can let our team of expert technicians do the install for you or with your team of engineers.
- All our technicians are trade qualified. We have a local team of engineers and technicians who can run a maintenance program on your machines for your business or service any ad hoc repair or maintenance needs your business may have.

From small to large operations, Tronics can provide both simple and complex solutions to meet your packaging labelling, and marking/coding needs. No matter what packaging type, size or shape, let us help you with the right solution for your business.

Why not contact us on 1300 018 330 for an obligation free discussion regarding your business needs, or visit our website to find more information specific to your industry on www.tronics.com.au/applications.

ASK US ABOUT THE PURCHASE OPTIONS WE HAVE ON OFFER

TRONICS®

A DIVISION OF  **ALDUS**

LEASE

Our customised leasing and renting options eliminate the need for bulky single purchases and reduce them to manageable and competitive monthly payments. As part of your lease agreement, you also get easy terms, full maintenance services, and spare parts for the life of your lease.

TRADE-IN

Unlike many other machinery suppliers, we also offer competitive trade-ins for our machines. We can break them down into parts so they are worth something to us, which reduces your purchase cost.

BUY OUTRIGHT

We can, of course, also sell to you under an outright purchase. Take advantage of the Australian Government's accelerated asset depreciation scheme* now, which allows eligible businesses with an aggregated turnover under \$5 billion to receive an immediate tax deduction for the full cost of new eligible depreciable assets acquired, provided the equipment is first used or installed for use between 7:30pm AEDT on 6 October 2020 and 30 June 2022.
